About this report

THE PICK N PAY 2012 INTEGRATED ANNUAL REPORT

We are pleased to publish our second Integrated Annual Report, compiled and presented in line with the requirements of the King Code and Report on Governance for South Africa (King III).

King III has introduced new standards of global best practice in reporting and we are on a journey to implement those standards as far as possible in our Group. We aim to improve our disclosure year on year, in order to provide all our stakeholders with a balanced and transparent understanding of our business. We aim to give a comprehensive report on the financial performance and position of the Group, the material issues and opportunities faced by the Group and how these underpin our strategic objectives. In so doing, we hope to communicate adequately to all our stakeholders on how we create value and how we will ensure that our value creation is sustainable in the long term.

We hope that this Integrated Annual Report gives you a better understanding of our business – of who we are, how we do business and where we hope to be in the future. We are committed to improving on this report and would appreciate your feedback in this regard. Any comments can be emailed to Debra Muller, our Company Secretary, at demuller@pnp.co.za.

SCOPE AND BOUNDARY

This report covers the financial performance, operational highlights and strategic objectives of Pick n Pay Holdings Limited and Pick n Pay Stores Limited and all their subsidiaries and associate.

The scope of reporting on sustainability issues and sustainable performance is specific to Pick n Pay only, and does not refer to any non-Pick n Pay branded subsidiary or associate.

The report covers the period 1 March 2011 to 29 February 2012, although on occasion, attention is also drawn to the six months to 31 August 2011 (interim result or first half) and the six months to 29 February 2012 (second half).

The Integrated Annual Report should be read together with the audited Annual Financial Statements, available on our website at www.picknpay-ir.co.za. The Annual Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS), the requirements of the Companies Act and the Listings Requirements of the JSE. Financial information contained within this Integrated Annual Report was extracted from the audited Annual Financial Statements.

There have been no restatements of financial information in respect of prior periods, other than a restatement of turnover and cost of merchandise sold (with no impact on gross profit) in respect of certain franchise arrangements in Botswana, Lesotho and Swaziland – please refer to note 30 of the Annual Financial Statements for further information. In further considering year-on-year comparability we draw your attention to the following:

- The sale of Franklins, our Australian subsidiary, on 30 September 2011 – please refer to note 18 of the Annual Financial Statements;
- The purchase of an additional 24% investment in our associate TM Supermarkets in Zimbabwe, bringing our total stake to 49% – please refer to note 11 of the Annual Financial Statements;
- The introduction of our Smartshopper loyalty programme – please refer to notes 1 and 25 of our Annual Financial Statements.

The principle of materiality has been applied in determining the content and extent of disclosure in the Integrated Annual Report.

FORWARD LOOKING INFORMATION

This Integrated Annual Report contains certain forward looking statements relating to the financial performance and position of the Group. All forward looking statements are solely based on the views and considerations of the directors. These statements involve risk and uncertainty as they relate to events and circumstances in the future. Factors that could cause actual results to differ materially from those in forward looking statements include, but are not limited to, global and national economic and market conditions, competitive conditions and regulatory factors. These forward looking statements have not been reviewed or reported on by the external auditors.

EXTERNAL ASSURANCE

The Board, assisted by the Audit committee, is ultimately responsible for overseeing the integrity of the Integrated Annual Report. This was achieved through setting up the appropriate teams and structures to undertake the reporting process, and performing a thorough review of the report.

A combined assurance approach will be developed in the future to ensure the appropriate application of integrated reporting principles and the integrity of data contained in the report. External assurance obtained in the current year was limited to the audit opinion on the Group Annual Financial Statements.

WE FOUND GOODNESS IN CHARCOAL

Sibusiso Tshabalala, owner of Berry Hill Trading, set up his business after visiting the family farm in Volksrust. His grandfather had a small-scale charcoal and woodcutting venture and Sibusiso's dream was to set South Africa on fire. "I took a big risk when I started Berry Hill Trading" he says.

He received assistance from Pick n Pay's mentorship programme that saw potential in his business and decided to invest in it through the Pick n Pay Ackerman Foundation. Sibusiso was surprised that he had been noticed by such a large company, but that's a major part of the way Pick n Pay does business; empowering people with sustainable dreams. Sibusiso says, "If Pick n Pay hadn't taken an interest in us, we wouldn't have succeeded."

These days, Sibusiso supplies Pick n Pay stores across SA with his charcoal product. "Braaing makes me think of family and spending time with the people you love." Sibusiso's success proves why doing good is good business. He now employs more than 200 people and gathers wood from the farms of around 33 emerging farmers, much of which comes from alien vegetation.

Group at a glance

The Pick n Pay Group (“the Group”) is one of South Africa’s largest and most successful retailers.

In 1967 Raymond Ackerman purchased four small stores, launching Pick n Pay as South Africa’s first food discounter. Listed on the Johannesburg Securities Exchange the following year as Pick n Pay Stores Limited, its appearance among the Sunday Times Top 100 companies in 1969 reflected its rapid growth to prominence.

In the 2012 financial year the Group generated an annual turnover of R55.3 billion (from continuing operations), while processing more than 50 million consumer transactions a month and employing over 42 000 people. We aspire to be a world-class competitor where we operate, offering the best quality at the best prices, with additional services offered to cater to our customers’ expectations and evolving needs.

At February 2012 the Group consists of 941 stores, owned and franchised, across southern Africa, including a 49% investment in Zimbabwean retailer TM Supermarkets, comprising 50 stores. The franchise operation of the Company has helped create 388 individual entrepreneurs, many drawn from South Africa’s previously disadvantaged communities. Our franchise model has enabled rapid expansion for Pick n Pay and plays an active part in our continued growth. Store formats, both owned and franchised, include hypermarkets, supermarkets, express convenience, liquor, hardware, pharmacies and clothing.

The growth and success of Pick n Pay is attributable to three basic principles, which form the cornerstone of our business:

- Doing good is good business;
- Consumer sovereignty; and
- Maximising business efficiency.

We believe the application of these fundamental principles gives a solid platform for a truly sustainable business. Pick n Pay continues to strive to be the consumer champion in the communities in which we operate, always acting in the best interests of our customers and dedicating ourselves to community development and upliftment.

Pick n Pay has been a family business since its foundation. Family control has ensured the maintenance of the values and principles which have driven our commercial conduct since 1967.

Raymond Ackerman retired as Chairman in March 2010, after being involved with the Group for over four decades. His son, Gareth, has taken over as Chairman, while Raymond retains an ambassadorial role in the business.

In 2007 the Group launched an extensive transformation strategy, entering a period of significant investment and change, in order to build the platform for future growth.

This investment over the last five years has included:

- A revitalised brand positioning;
- Entry into the growing convenience sector of the market;
- Increased geographic and demographic reach of the Pick n Pay brand with the conversion of Score stores to Pick n Pay franchise stores;
- The re-launch of our private label portfolio;
- A shift towards a more centralised operation, including central distribution;
- The roll-out of SAP information technology and infrastructure for improved operational efficiency;
- Innovative expense control measures in respect of goods not for resale;
- A refocused priority for sustainable business practice and environmentally friendly initiatives;
- Consolidation of duplicate activities to achieve efficiencies and expense reduction;
- The implementation of specialised category buying; and
- The launch of our Smartshopper customer loyalty programme.

As we enter a new financial year, we will accelerate the roll-out of our extensive restructuring programme and sharpen our strategic focus, with resolute attention on business efficiency, increasing productivity and superb customer service. We will continue to invest in our social responsibility initiatives in order to support, develop and uplift our communities to ensure social and economic sustainability for all. We are committed to protecting our environment and conserving natural resources and will continue to roll-out green innovations throughout our operations in the 2013 financial year.

We are confident that the critical investments we have made will lay the foundations for future growth and enhanced competitiveness in national and global markets.

Performance highlights

We are encouraged by the Group's improved performance over the six months to February 2012, after a tough interim result, with the first clear indications that our investments in our transformation are starting to yield real benefits.

FINANCIAL HIGHLIGHTS

The encouraging growth in turnover has been driven by steady volume increases, notwithstanding the effects of inflation. We have also seen improvement in gross margin due to the benefits of specialised category buying.

Significant strategic transformation investment costs have had an impact on profit growth for the year, most notably the upfront launch costs of Smartshopper, the implementation of specialist category buying and the continued investment in our central distribution capability, all of which will improve future operating efficiencies and enable us to serve our customers better.

The marked improvement in our second half year financial performance is very encouraging and is a clear indication that our transformation strategy is starting to have a positive impact on the financial performance of the Group.

WE FOUND GOODNESS IN FLOWERS

The Cape Floral Kingdom is one of the world's richest plant kingdoms. So, how does picking up a glorious bouquet of Proteas, Ericas, and other flowers at Pick n Pay ensure that future generations will continue to enjoy this gift of beauty?

Fynbos is threatened by invasive species, uncontrolled fires, and challenges from climate change and human settlement where these treasures grow.

Enter the Flower Valley Conservation Trust.

Nestled between the hills of Stanford, lies a farm of a thousand different flowers. Harvesters move from flower to flower, knowing exactly what to pick and what to leave to ensure a sustainable future.

For many of their suppliers and pickers, harvesting flowers isn't only a passion; it's also about capacity building and entrepreneurial opportunities.

In addition to training courses, including life-skills training, which are supported by the trust, it has allowed them to develop their own picking teams and to manage their own small businesses, which now supply sustainably harvested fynbos to FYNOSA.

For Pick n Pay the work of the trust was an ideal opportunity to put into practice one of their core values: that doing good is good business. By offering crucial small business training and financial support to the Flower Valley Conservation Trust, flowers now grace the shelves of Pick n Pay stores. By buying these flowers you are supporting the work of the trust: empowering and developing the business of bringing beauty to stores in a sustainable manner.

WE FOUND GOODNESS IN OLIVES

Nestled on the slopes of a small mountain range called the Kasteelberg, 87km north of Cape Town, lies a beautiful Cape Dutch farm. More than just a pretty sight, this 171ha farm is home to the Goedgedacht Trust, a rural development centre offering its rich resources to the Swartland and West Coast area.

The trust, proudly supported by the Pick n Pay Ackerman Foundation, works with poor rural communities and is committed to poverty alleviation. One of its main focus areas is the aspirations and needs of new farmers and farmworkers.

The partnership has produced some delicious results; products that can be bought at Pick n Pay stores such as olives, olive oils and quality natural fruit vinegar.

These products are produced from the Olive Peace Grove and marketed under the Goedgedacht label.

Engaging with stakeholders

In addition to the major stakeholders identified above, we also have close relationships with many NGOs and business associations where we work closely together on key social and environmental issues facing our local communities and South Africa as a whole. We also engage actively with government departments and other regulators on new legislation and policy reform to ensure that we have a voice in a developing South Africa.

We commit to an open and transparent engagement with the media and to provide information in a timely and courteous manner. We will continue to raise issues with the media which we believe are in the public's interest, and in the interests of our customers.

Ensuring our strategy meets the needs of our stakeholders

Pick n Pay values open and honest feedback from our stakeholders, as it does media comment, as such interaction is critical to informing our thinking and strategic focus. We engage constantly with a wide range of stakeholders, and as the marketplace becomes more complex and competitive this will become even more important. Engagement with the relevant stakeholders is an expectation across all our departments and is not the preserve of a single director or division. We are increasingly using social media and web-based platforms to encourage real-time interaction and will enhance our engagement activities using our Smartshopper information.

The King Code and Report on Governance for South Africa (King III) highlighted that managing relationships with stakeholders is an essential component of corporate governance, and placed much emphasis on enhanced disclosure and integrated sustainability reporting beyond mere financial performance. In line with the requirements of King III, Pick n Pay is committed to the integrated reporting of our financial, social and environmental performance. In this way, we are able to demonstrate to the full spectrum of our stakeholders how we have generated value in our adherence to the most stringent standards of corporate responsibility, financial disclosure and environmental management. Such integrated reporting allows our stakeholders to make a more informed assessment of the Company's social and economic value rather than simply its book value, while at the same time enabling them to assess the extent to which we have met the commitments that we have made to them.

However, our stakeholder engagement extends far beyond what is required by disclosure rules and regulatory requirements. Rather, Pick n Pay considers stakeholder engagement a strategic imperative that augments our competitive advantage and allows us to focus on operational as well as customer-centric sustainability issues, in a way that builds inclusive, mutually beneficial relationships based on transparency, respect and idea-sharing.

GROUP OVERVIEW

SUMMARISED ANNUAL FINANCIAL STATEMENTS

CORPORATE GOVERNANCE

CORPORATE AND SHAREHOLDER INFORMATION

Chairman's report

The results presented in this Integrated Annual Report demonstrate a marked improvement in the second half of the financial year, driven largely by the major initiatives we have undertaken to transform the business in accordance with a clear strategy and implementation plan. This encouraging performance vindicates the tough choices we have made in recent years to reposition the Group for future expansion and growth.

In the year under review we have delivered substantively on our strategy and the undertakings given to our stakeholders. Notable achievements have included the sale of our Australian business for R1.2 billion, net of fees, the launch of our Smartshopper programme which has exceeded all our projections, an accelerated store roll-out and good progress on several comprehensive transformation projects within the business.

In context, however, trading has occurred in an uncertain economic environment: consumer confidence remains tenuous and slow to recover, with high levels of household debt and further increases in inflation putting pressure on disposable incomes. At the same time, the retail sector has experienced profound changes, posing new challenges to our competitiveness and necessitating a more urgent focus on our determination to improve operating efficiencies and provide a superior customer experience. While the retail industry is hardly a stranger to high levels of competitiveness, this new era takes competitiveness to a greater level. This is ultimately good for the consumer.

We are bound to acknowledge that government has achieved much in improving the quality of life of our citizens and that its management of the economy has, so far, been worthy of praise, and we thus owe government our support where it is due. Macro-economic stability has been impressively maintained in the face of the global financial crisis, inflation has been contained and economic policy has been fiscally prudent. But unemployment remains high, ageing infrastructure has constrained growth and daunting economic problems remain from the apartheid era. It is often said that government alone cannot resolve these issues and Pick n Pay has always believed that business has a duty to partner with government in the urgent task of economic development and socio-economic progress.

Gareth Ackerman
Chairman

In the South African context, a sophisticated business sector is well placed to collaborate with government to create public policy and to fashion appropriate legislative frameworks which provide precisely the long-term vision envisaged by the work of the National Planning Commission.

As this report records, Pick n Pay has made great strides in advancing such a contribution. Whether in the nurturing of small-scale producers of agricultural produce, the mentoring of black-owned enterprises as suppliers to our stores, or the many projects undertaken as part of our corporate social investment commitments, we have sought to support and complement government's efforts to create a society that is prosperous, stable and confident of its future.

Pick n Pay can regard with pride the contribution it has made to society since the dawning of a democratic South Africa and before. As an engaged corporate citizen, we take our social, economic and environmental responsibilities and obligations very seriously. In meeting these responsibilities, we have been guided

by our core principle that doing good is good business, but also by the national priorities set by government, particularly in the fields of job creation, the nurturing of skills among emerging entrepreneurs and the advancement of certain key objectives such as education and the combating of HIV/Aids.

Domestic and foreign investor uncertainty would be greatly reduced were government to feel more confident that there is much to be gained from greater co-operation with the private sector and placed greater faith in the potential of public-private partnerships.

For our part, Pick n Pay will continue to explore strategies and opportunities that augment such collaboration in building the nation in which so many South Africans have invested their hopes and aspirations.

In seeking to operate profitably, we owe it to our shareholders to hold government accountable when it behaves in a manner that compromises our ability to conduct our business effectively and efficiently. Unlike labour, business is not in alliance with the governing party, and thus often struggles to have its voice heard above those with more privileged access to national policy debates.

At the time of writing, we launched our new "Goodness" programme, which illustrates our commitment to South Africa both economically and socially and underpins our three main focus areas within Pick n Pay: doing good is good business, consumer sovereignty and business efficiency. While this is a contemporary look at our initiatives, it amply cements our legacy as a company that is fully in tune with South African society.

Through the Pick n Pay Ackerman Foundation, we partner with emerging producers so that they can enter the supply chain as suppliers to our stores in their own right. Our small business incubator initiative offers not only funding, but also expertise to emerging producers and manufacturers in terms of mentorship and access to experts in the field. From milk to olive oil and charcoal, we are assisting small businesses and producers to develop their enterprises and get their products onto our shelves and into the baskets of our shoppers.

For the past five years, we have been investing each year to develop and mentor these independent businesses and we are really pleased with what they have achieved so far.

A major focus area for Pick n Pay is environmental sustainability and we are striving to be South Africa's greenest retailer. We have won a great number of awards in the past year, such as the Sunday Times Top Brands Grand Prix Award for the third year running for doing the most to promote a more "green" lifestyle and second place in the Mail & Guardian's annual Greening the Future awards for the most innovative environmental strategies. Pick n Pay was also awarded the Environmental Social Governance award and the Innovation Through Technology award at the annual African Access National Business Awards.

For Pick n Pay, sustainability is more than just being a "green" company. Our approach is to ensure we become a more resilient company by embedding sustainable practices in our core activities. These have positively impacted our bottom line, as they should.

Just after our financial year-end, we finalised our agreement with BP South Africa which will see the roll out of 120 Pick n Pay Express stores on BP forecourts over five years. This is a significant venture and allows us to expand our footprint in this format and benefit from an association with one of South Africa's top petroleum companies.

Our expansion into Africa during the last year brought our store footprint to 94 and will continue deliberately and strategically into the next financial year, with openings set for Mozambique, Zambia and Mauritius. In February 2012 we subscribed for an additional 24% stake in our associate TM Supermarkets in Zimbabwe, taking our total investment to 49%.

While this Integrated Annual Report records much of which we can be proud, there is still much work to be done on transforming the business. A key focus area for us is customer service, which will receive our full attention in the year ahead and beyond. An integral part of this is our ability to staff our stores correctly and the labour agreement reached during the last financial year will go a long way towards making sure that the optimum staffing levels are achieved, which should have a significantly positive effect on customer service.

Chairman's report continued

What I can confidently assert is that after several years of extremely difficult trading conditions, often dramatic restructuring and very considerable capital expenditure, Pick n Pay is beginning to demonstrate the tangible benefits which have been our goal since we launched this ambitious transformation programme some five years ago. The marked improvement in our second half result provides powerful momentum as we enter the new financial year.

There is a new energy across the Group and the "green shoots" towards which I have looked are becoming evident. I am confident that we have reached a significant turning point in Pick n Pay's fortunes and that the building blocks are in place for us to become the most efficient and profitable business in South Africa's food retail industry.

Towards the end of the financial year, Nick Badminton retired after 6 years as CEO and 33 years with the Company. He has played a

critical role in transforming the business and I am extremely grateful for the loyalty, dedication and competence which characterised his years with Pick n Pay. He takes with him our very best wishes for his future.

My thanks to Richard van Rensburg and the Group Executive team for stepping up and running the Company so efficiently and effectively while we search for our new CEO.

WE FOUND GOODNESS IN MILK

When you pick up a carton of All Seasons milk at Pick n Pay, take a look at it because this healthy product is evidence of an inspired partnership between Pick n Pay and the All Seasons food brand.

Suzanne Ackerman-Berman, Director of Transformation at Pick n Pay, says All Seasons speaks directly to Pick n Pay's own transformation agenda.

"Providing small suppliers with viable market access is a priority for us and we are very proud to be the first retailer to support All Seasons products, the sales of which serve to uplift rural communities by ensuring a sustainable income stream for the rural women and farmworkers in the Western Cape who own this brand."

All Seasons is owned by the Proudly South African Intshona Agri-business Initiative, one of the first food brands to give ownership to rural black women and farmworkers, helping them to have a real stake in the economy.

There really is a lot of goodness in a glass of All Seasons milk.

Deputy Chief Executive and Chief Finance Officers' report

Richard van Rensburg
Deputy Chief Executive Officer

Bakar Jakoet
Chief Finance Officer

OVERVIEW

A great deal of focus and resources has been invested in an extensive transformation process over the last three years, requiring an unwavering commitment from the Pick n Pay team. We have faced a number of challenges and risks, but in a relatively short period have made significant strides in the implementation of our strategy and in renewing Pick n Pay for the future.

The considerable progress made to date includes the successful enterprise-wide implementation of SAP, the introduction of centralised distribution, our increased and improved footprint in the lower LSM market, the consolidation of our three inland administrative regions, the implementation of specialised category buying and the introduction of South Africa's largest retail loyalty programme, Smartshopper.

These initiatives, although absolutely imperative to the long-term sustainability of the Group, have come with significant investment costs. These costs have negatively impacted the financial performance of the Group over the last few years. The 2012 financial year is no different, with significant investment costs once again curtailing profit growth. However, it is without doubt a year of two distinct halves. A particularly tough interim result saw our trading profit from continuing operations fall by 31.7% for the first half of the year, but we were able to achieve a marked

improvement in the second half, with trading profit for the six months to 29 February increasing by 11.2% on the same period last year. We are encouraged by the performance in the second half and believe that there are now clear indications that our investments over the last few years are starting to yield real benefits.

STRATEGIC ACHIEVEMENTS IN 2012

The Group has taken some significant steps forward in the 2012 financial year, which have enabled us to bed down the key elements of our strategy and focus on our core operations:

Smartshopper – we launched our loyalty programme in March 2011. Customer acceptance of the programme has far exceeded our expectations and we currently have in excess of five million active cardholders on the programme, against a first year target of three million. Smartshopper sales currently make up 60% of our total sales and 33% of all our baskets, with a Smartshopper basket growing at a significantly higher rate than a non-Smartshopper basket. We have been able to show our Smartshoppers real benefits, providing R350 million in savings over the year. It will take a number of years before we realise the full benefits of the programme, however we believe the encouraging growth in turnover this year is due in part to Smartshopper. Set-up costs have impacted the earnings of the Group, but we expect the programme to drive turnover growth

now and into the future and generate additional value as we understand our customers better and can market more effectively to them.

Specialised category buying – we have successfully completed the transformation of our regional buying teams into a single, specialised category buying division. This is a complete overhaul of buying at Pick n Pay and marks a significant shift in the way in which we engage with suppliers. The division has already delivered improved performance through the reduced cost of goods and a scientific approach to ranging and pricing. With specialised category buying we will be better placed in negotiations with suppliers, will rationalise our product range and will optimise our product display. Our key focus is on delivering an improved selection of high quality products and better value to customers.

Centralised distribution – we are currently moving 1.6 million cases a week through Longmeadow, our central distribution centre in Gauteng, and 36% of total groceries are now centrally distributed. There have been pleasing operational improvements at Longmeadow, which include reduced labour and distribution costs per case on last year. We continue to focus on this facility to ensure that our supply chain is fully optimised. We opened our new Western Cape distribution centre in May 2012 which will benefit from our learnings at Longmeadow.

Labour costs and expense control – general expense control remains a high priority and management is focused on eliminating inefficiencies, improving productivity and reducing controllable costs, especially in light of the extraordinary increases in property rates and electricity tariffs over the year. In December 2011 we negotiated a new agreement with the union, which affords us

much more flexibility and will enable us to staff our stores more efficiently. We expect the benefits of this agreement to start flowing in the 2013 financial year.

PnP on Nicol – our flagship “green” store in Sandton has traded exceptionally well over the last year and illustrates that there is significant opportunity for Pick n Pay in the upper end of the market. A number of successful innovations from this store were incorporated into three other stores this year and we plan to roll out more than 10 of these type of stores over the next three to five years.

Franklins, Australia – in September 2011, after a lengthy dispute with the Australian Competition and Consumer Commission, we sold our Franklins business to Metcash Limited for R1.2 billion, net of fees. We are now able to focus our teams and capital entirely on our core southern African retail operations.

FINANCIAL REVIEW

Significant investment costs had an impact on profit growth for the year, most notably the upfront launch costs of Smartshopper, the implementation of specialist category buying and the continued investment in our central distribution capability, all of which will improve future operating efficiencies and enable us to serve our customers better.

There has been a marked improvement in the second half performance, with the first clear signs that the business is starting to reap some rewards from the transformation work done to date.

Franklins is disclosed as a discontinued operation and its operating results to end September 2011 and the subsequent profit on sale of the business are excluded from the results reported below.

Deputy Chief Executive and Chief Finance Officers' report continued

Group turnover at R55.3 billion for the year is 8.1% above last year (8.6% for the six months ended 29 February 2012), with pleasing like-for-like growth. This turnover growth is encouraging in a highly competitive environment and is the result of a number of factors, including the positive effect of our Smartshopper programme. While our own internal selling price inflation remains below CPI, South African consumers are facing inflationary increases across the board, which when combined with continued economic uncertainty is leading them to exercise caution in their spending.

Gross profit margin for the year is 18.0% (2011: 17.8%). This improvement in margin is due to the initial benefits of specialised category buying, which more than offsets the cost of the Smartshopper loyalty points. We believe that we will be able to strengthen margins further over the coming years while maintaining our competitive price position through further category buying and supply chain improvements.

Trading profit growth in the six months to February 2012 is 11.2% up on the same period last year, a considerable improvement on the first half performance. Trading profit for the year of R1 267.5 million (2011: R1 417.7 million), at a margin of 2.3% (2011: 2.8%) is 10.6% down on last year, most significantly due to costs relating to our strategic transformation initiatives. Our labour cost has been well controlled and with our new flexible labour agreement, there is significant potential for improvement.

There has been material cost inflation in our business, most significantly with electricity, rates and fuel, and as such management continues to focus on general expense control and improving productivity.

EBITDA (earnings before interest, tax, depreciation and amortisation) is up 9.6% for the second six-month trading period, but is down 4.0% for the year to R2 073.7 million. This illustrates how our operations continue to generate strong cash returns with a comfortable coverage of tax and interest.

Net cash from operating activities at R1 558.8 million is up from R3.5 million last year, largely due to a R1.3 billion turnaround in cash generated from working capital. There have been a number of improvements in working capital management and we are focused, in particular, on reducing and managing optimum stock levels in store.

We are pleased with the progress made in this area, with like-for-like stockholdings reducing by 5.3% on last year. We continue to invest in our business and spent R1.8 billion on new stores and refurbishments during the year.

Headline earnings per share for the six months to 29 February 2012 is up 6.7% on the same period last year, to 105.98 cents per share. Headline earnings per share for the year is down 15.1% to 160.78 cents per share.

The final dividend per share of 108.35 cents for Pick n Pay Stores Limited and 52.57 cents for Pick n Pay Holdings Limited includes an additional amount to be paid to shareholders in respect of the 10% secondary tax on companies (STC) no longer payable by the Group. This brings the total dividend per share for the year to 130.85 cents for Pick n Pay Stores Limited (8.2% down on last year) and 63.48 cents for Pick n Pay Holdings Limited (8.4% down on last year).

The Group intends to maintain its dividend cover at 1.33, however with the additional dividend declared to shareholders referred to above; the dividend cover for the current year is 1.23 times.

OPERATIONAL REVIEW

We are encouraged by our improved trading in the six months to February 2012, particularly in our core supermarket business. We have matched the like-for-like sales growth of our major competitors, which suggests that after a number of years, we now have the building blocks in place for a new and improved way of doing business. We have not been as good as we could have been though, particularly in the area of customer service, and there is still much room for improvement.

We are consistently the price leader in South Africa in known value items (KVI) and full basket price checks. Unfortunately there still exists a price perception gap among consumers, with the mistaken view that we are more expensive than some of our competitors. We will focus our marketing to effectively communicate this to customers, in order to be recognised for the value that we provide.

In terms of sales growth per format, our weakest performance comes from our larger format Hypermarket stores, and we are putting the necessary measures in place to address this.

Our short-term operational focus will be on refreshing the Hypermarket format, improving our general merchandise offer and refocusing our marketing strategy to reinforce our larger stores as a superb value proposition for the customer.

The strongest growth has come from our smaller format stores and as such, we are focused on increasing our footprint with these convenience supermarkets. This is an exciting growth opportunity for the Group, particularly in light of our progress in the areas of central distribution and labour flexibility. We will now be able to service small stores effectively from our central distribution centres and, with more flexible labour arrangements, will be able to facilitate deliveries outside of normal trading hours, to reduce costs and increase service delivery to customers.

Our stores in the lower income (or LSM) areas continue to outperform their higher income counterparts in turnover growth. Both Pick n Pay and Boxer stores trade well in this arena and we see these emerging market stores as a significant opportunity for all Pick n Pay brands. Consequently we are looking to grow our trading space in these markets.

Although over recent years growth has benefited retailers positioned in the LSM 4 – 6 market, we believe that South Africa will begin to win the war against poverty and as more South Africans start to prosper, we will see growth increasingly flow into the LSM 6 – 8 markets, our trading heartland. We are confident that we are perfectly positioned to benefit from this future shift.

We believe that we are the aspirational supermarket brand in the lower income markets, because of the value and quality we offer in world-class stores. However, we seek to be the supermarket of choice for all South Africans, with a format to suit every shopper and every shopping occasion. There is therefore no reason to believe that we cannot be the retailer of choice in the LSM 8 – 10 market. Our incredible success with PnP on Nicol has shown that we can serve this market as well as, if not better than, our major competitors and as such, we intend to roll out the innovations implemented at Nicol into other strategically placed stores.

Pick n Pay owned stores (corporate) – during the year we opened 9 new supermarkets, closed 3 and converted 5 franchise supermarkets to corporate stores. In addition, we opened 34 liquor stores and 15 clothing stores. We intend to open at least 9 new supermarkets next year, 20 liquor stores and 15 clothing stores.

Pick n Pay franchised stores – during the year we opened 9 new supermarkets, closed 5 supermarkets and converted 5 franchise supermarkets to corporate stores. In addition, we opened 19 liquor stores, 2 clothing stores and closed 2 mini markets during the year. We intend to open at least 7 new supermarkets and 15 liquor stores in South Africa next year.

Boxer – we opened 10 Boxer superstores during the year, closed 4 and opened 8 new Punch stores. Boxer also opened 4 liquor stores and 2 Boxer Builds. We intend to open 22 superstores, 9 Punch supermarkets, 4 Boxer Builds and 10 liquor stores next year.

Africa – we continue our steady growth into southern Africa and at 29 February 2012, the total number of stores outside South Africa (both owned and franchised) was 94. We opened 3 new stores in Zambia during the year, all of which are trading well, and we continue to explore opportunities in the region. We also opened our first store in Mozambique and our first two stores in Mauritius. We have three openings planned for 2013 (excluding TM Supermarkets in Zimbabwe), in Mozambique, Zambia and Mauritius.

In February 2012 we subscribed for additional share capital equal to a 24% stake in our associate TM Supermarkets in Zimbabwe for R102.5 million (US\$13 million), taking our total investment to 49%. The business is currently incurring losses, our share being R1.9 million for the year. However, we are confident of its future prospects and are looking forward to playing a part in growing the business in Zimbabwe.

ENVIRONMENTAL AND SOCIAL SUSTAINABILITY

Environmental and social sustainability is at the very core of our business, fully incorporated into our strategy and daily operations. The 2012 financial year saw our continued commitment in all areas of environmental sustainability and social responsibility, with a particular focus on enterprise development. Pick n Pay has a long history of supporting and developing small suppliers, assisting them to become long-term suppliers to Pick n Pay and other retailers.

Deputy Chief Executive and Chief Finance Officers' report continued

With our small business incubator and Pick n Pay Franchise Academy we have had great success in developing successful entrepreneurs, and as such have contributed significantly to the economic sustainability of the communities in which we operate.

In addition, we continued our commitment to conserving our environment and reducing our carbon footprint. An example of this is our new Western Cape distribution centre, which incorporates a number of green innovations such as some off-grid power generation, daylight harvesting, rainwater collection and motion sensor lighting.

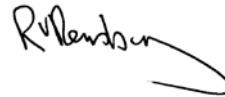

In the 2012 financial year we were once again recognised by the Sunday Times as South Africa's leading company in the promotion of green awareness, and received recognition from Eskom for innovation in energy savings.

LOOKING FORWARD

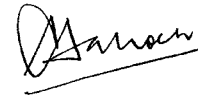

Despite a challenging year, our improved performance over the last six months gives us confidence in the work that we have done in repositioning the Group for the future, and gives us

good momentum into the 2013 financial year. A significant portion of our transformation strategy has now been implemented. Although we acknowledge that there is still much work to be done in seeing the strategy through to completion, we believe we have reached the point where the benefits of the changes to date are starting to be felt and are expected to accelerate in the year ahead.

We are operating in an uncertain economic climate and a highly competitive industry, and are still faced with all the risks and challenges of a Group undergoing great change, and as such it is difficult to predict with any certainty the timing and strength of our recovery. However, we are absolutely convinced that the transformation work undertaken to date has been crucial in positioning the Group for a successful and sustainable future.

WE FOUND GOODNESS IN CYCLING

For young people, growing up in a township is hard. Drugs, unemployment, gangsterism and violence are constant problems for those living in underprivileged areas. Pick n Pay has partnered with the Life Cycle Academy on a project that encourages kids to get off the streets and get on a bicycle, to spend their afternoons at the BMX track or riding together on the road. The academy is dedicated to the promotion of safe, recreational and competitive cycling in South Africa's previously disadvantaged communities that will have meaningful effects on the individuals who take part, and on the sport of cycling. Zanele Tshoko dreams of becoming a professional cyclist and an engineer. She lives in Khayelitsha and attends Bumluko Senior School. She is in Grade 11. Life hasn't been easy for Zanele – she was teased constantly as a young girl for being a tomboy. And when she started cycling the teasing got worse. "It is not proper in our culture for a black woman to be a cyclist. But I have chosen to believe in myself!" She first heard about the academy at school, in 2005. Since joining, cycling has changed her life. "It keeps me out of trouble, away from alcohol and teenage pregnancy. It is good to have a healthy focus." Zanele has completed the Pick n Pay Argus Cycle Tour three times, and has been on the podium in the SA Road Championships for the last two years running. This year she took second place in the individual time trial.

Strategy update

OVERVIEW

The Group's core focus has been to strengthen its strong South African retail businesses, Pick n Pay and Boxer, while adopting a systematic approach to expanding into adjacent areas, including geographical growth through the African continent.

Pick n Pay has been consistently following this strategy since 2007, which has led us to exit non-performing parts of our portfolio. In 2007, the decision was made to convert the weak Score Supermarkets into Pick n Pay and Boxer stores. In September 2011, the Group's Australian subsidiary, Franklins, was sold to Sydney-based wholesaler, Metcash Limited.

Each of these decisions has led to substantial value creation and has enabled the Group to focus more intently on Pick n Pay and Boxer.

STRATEGIC CONTEXT

Of the total Group turnover, 92.3% is generated in South Africa through the supermarket businesses of Pick n Pay and Boxer. The remaining 7.7% is generated through the Group's operations in Namibia, Botswana, Zambia, Mozambique, Mauritius, Swaziland and Lesotho. Additionally Pick n Pay owns a 49% stake in the Zimbabwean supermarket business TM Supermarkets.

Uniquely in the South African market, the Pick n Pay Group has broad appeal across all the nation's diverse customer groups. The Pick n Pay business is mainly targeted at the middle to upper income customer groups; whereas Boxer serves lower to middle income customers. However, the two businesses frequently trade within the same market and do so with great success.

Pick n Pay, which represents the majority of the Group's turnover, operates across multiple formats to suit and meet customers' needs. There are 20 hypermarkets which offer Pick n Pay's largest range of both food and general merchandise under one roof. There are 456 supermarkets of which 282 are franchised, which provide food and a more selected range of general merchandise. In addition there are 9 Pick n Pay Express stores which, in partnership with BP, provide customers with a convenient top-up alternative to larger stores.

We also retail clothing, liquor and pharmaceuticals with both in-store and stand-alone outlets contributing to the wide range of products and services offered by Pick n Pay.

Throughout each of its formats Pick n Pay aspires to offer the best and most appropriate choice of quality products, sold in world-class stores at great prices, thereby offering industry-leading value for money.

Boxer operates 129 stores across all its formats. Its primary focus is the Boxer Superstore business, with 99 stores providing a low price offer with a clear focus on the basic commodities such as maize, rice, flour and oil. The Boxer business has recently been piloting the Boxer Punch format which, through smaller stores and a more limited range of product, provides a more convenient alternative to the Boxer Superstore. There are now 9 Boxer Punch stores.

In South Africa the Pick n Pay and Boxer operations compete most directly with stores from the Shoprite Group, Spar and Woolworths. With their recent acquisition of Massmart, Walmart has announced its intention to build a large food retailing business. All of these retail chains also compete with the informal sector, which today still comprises about one third of the total food retail market. As the formal food retail market expands its store footprint, offering more convenient shopping at lower prices, the informal sector is coming under increasing pressure. The informal sector is served through the wholesale channel where Massmart is the largest player.

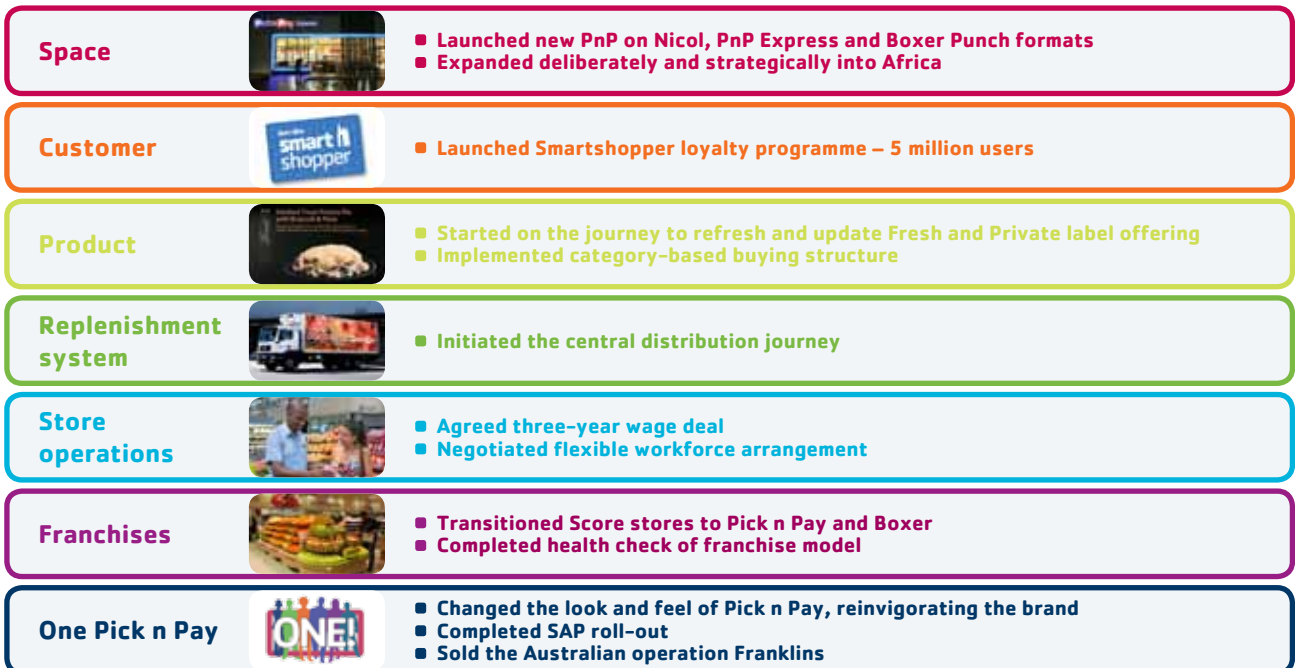

PICK N PAY GROUP REFRESHED STRATEGY

Over the past year we have refreshed, without substantively altering our strategy. Our overarching ambition is for the Group to become the “Retailer of choice for all South Africans”. This builds on Pick n Pay and Boxer’s brand strength and strong store portfolio.

To achieve this, the Group has seven strategic priorities summarised in the chart below:

Importantly this refreshed strategy does not represent a major departure from the strategy that has been followed for the past five years, and many of the achievements of recent years are summarised in the chart below:

These seven themes are all geared to ensure that the business can grow sustainably and profitably. There is a balance of growth-driven priorities, focusing on space, customer, franchise and product, and those largely focused on improving efficiency such as replenishment and store operations. The “One Pick n Pay” initiative ties these together to ensure that the business works well as a unified whole.

Strategy update continued

PICK N PAY GROUP REFRESHED STRATEGY continued

Strategic priority: Grow selling space ahead of the market

There is substantial competition for retail space both within South Africa and in other African markets. Ensuring that Pick n Pay increases its overall share of trading space over the long term is an important strategic priority. Over the past three years our space growth has lagged that of our competition particularly into the faster growing lower income areas and small stores. This not only directly reduces our market share but also puts pressure on like-for-like sales growth. We will continue to develop store formats and channels that meet customers' changing needs both in Pick n Pay and Boxer, in South Africa and beyond. Additionally we continue to build a pipeline of new sites, whether greenfield or through acquisition that will ensure we meet our aspirations.

Strategic priority: Build deep customer relationships

The launch of our customer rewards programme Smartshopper gives us a significant opportunity to get to know our customers' shopping habits and preferences substantially better than we do today. Since its launch in March 2011 the programme has been a great success. After just one year we now have over five million active cardholders, exceeding our initial target by two million. This enables us not only to know and understand each customer a great deal better, but to communicate with our customers in a different and more engaging manner.

We have direct access to the vast majority of Smartshopper customers by either SMS or email, which means that we can send targeted marketing communications directly to them. We can also ask for feedback directly from them. All of this translates into a very valuable two-way dialogue with our customers.

As a result we are designing and executing marketing campaigns which are more relevant to our customers. We are extracting insights from their shopping habits data in order to tailor our product ranges and more accurately serve them. All of this will assist us in growing our sales volumes significantly.

Strategic priority: Revolutionise Pick n Pay's product offer

During the past 12 months we have invested considerable time and resources in building a single specialised category buying division. Prior to the establishment of this division, Pick n Pay's sourcing activities were distributed across the operating regions.

This led to fragmentation of the Group's buying scale, with each buyer having a wide range of products to source. Our new specialised category buying division is made up of category teams each of which is responsible for the end-to-end profitability of a specific product category. They are tasked with developing a product range that meets all customer needs, sourcing those products at the lowest possible cost, constructing shelf layouts that help customers find what they are looking for easily, building a promotional plan that generates customer excitement, increased volumes and higher margins, and ensuring that Pick n Pay's prices remain highly competitive. Included in their responsibilities is the task of improving our Pick n Pay branded offer. Our own brand portfolio of products now makes up 15% of our grocery sales. It is a key source of differentiation for us.

As this division beds down we will see a vast improvement in the quality, choice and value of the products we offer to our customers.

Additionally we are focusing heavily on creating clear points of differentiation in fresh produce and meat. We have made significant improvements in recent years but we still have substantial scope to improve quality, freshness and range in these key categories, while minimising operating cost and wastage. We will be reviewing every part of the supply chain for fresh foods over the coming 12 months.

Strategic priority: Build a cost-effective replenishment system

Managing the flow of product to our stores in the most cost-effective manner is critical if we are to ensure that the product is available for the customer to buy at the right time, in the right place and at the right cost.

In 2007 we began transitioning from a direct-to-store delivery model to a centralised model where suppliers deliver to our own distribution centres and we consolidate the product and deliver to our stores. This results in a lower cost distribution model as fewer trucks travel fewer kilometres, while also enabling our stores to deal with much less complexity. Ultimately each store will receive fewer than five deliveries per day rather than, in some instances, more than 60. We will also be able to hold less stock in our stores.

Putting this model in place constitutes a major transformation of the business. We need to invest in distribution centres and build the capability to manage the flow of produce efficiently, which requires advanced systems and highly skilled personnel. We also need to develop the relationships with our suppliers so that we can minimise the total system cost of the supply chain and reinvest the savings in our product offer.

We have made significant progress in our operating regions served by the Longmeadow distribution centre in Johannesburg. This facility serves more than 300 stores and frequently delivers 1.6 million cases of product per week. We opened our new distribution centre in Cape Town in May 2012. Once this is fully operational, 50% of our grocery volume will be centralised. Further distribution centres will be opened in Durban and Johannesburg in the next two to three years.

Work has also begun on improving our fresh foods, frozen foods, and general merchandise distribution networks.

Strategic priority: Deliver best in-market shopping experience with lean efficiency

All elements of our strategy come to fruition in our stores. For us to serve our customer better, we need to improve how we support our store personnel to focus on those elements that really matter at the front-line. Through the other components of our strategy, we are putting in place specialists in marketing, category buying and replenishment. This will reduce the administrative strain of the stores significantly as they will be able to rely on specialised support structures to provide the right product to the store at the right time. Simplifying the store processes across the business will free up staff to do their jobs better and more efficiently leading to improved customer service and reduced costs.

Over the course of the next financial year, our store teams will be working hard to design the new ways of working which will be piloted before rolling-out.

In addition, our Goods Not for Resale ("GNFR") team is working hard to minimise the cost to procure products and services that we do not on-sell to our customers: examples include cleaning and security services, trolleys and utilities. Since its establishment

18 months ago the team has saved over R100 million on an annualised basis.

Strategic priority: Sustain a thriving franchise business

Franchisees are a critical part of our growth strategy. Through the owner-managed model they deliver outstanding service to our customers while building their own businesses. This is a mutually beneficial relationship as we are able to roll stores out more rapidly and efficiently.

However, such a relationship needs to be constantly nurtured. The success of our franchise business depends on us offering talented entrepreneurs the best franchise model in the market. Over the past year we have done substantial work on continually improving the working relationship. We will be working through these plans with our franchisees over the coming months.

Strategic priority: Work as One Pick n Pay

Pick n Pay has grown as a decentralised business with largely independent operating regions working to grow sales and profit. This arrangement has served us well over more than 40 years. However, we have always recognised that business practices need to evolve with developments in technology and international best practice. We are in the midst of transforming to a model where stores are supported by a strong backbone of nationally based specialist functions. As we make this transition, the need to work cross-functionally is greater than ever before. We are determined to retain the entrepreneurial spirit that characterised our decentralised system while ensuring we capture the benefits of scale and specialisation.

To do so, we are investing heavily in leadership development and in engaging all parts of the business in the transformation. We can only succeed if we work as one.

STRATEGY IMPLEMENTATION

Over the past six months we have been pulling each element of our strategy into one overall transformation programme for the Group. This will ensure that trade-offs are managed appropriately, priorities are set and that the resources we have are devoted to those activities which will make the biggest difference to our customers.

Strategy update continued

MEASUREMENT AND KEY PERFORMANCE INDICATORS (KPIs)

Each of the strategic priorities we have identified has clear ownership within our Group Executive with equally clear KPIs.

Below is a chart outlining the relevant KPIs per each strategic priority. While there are always more measures one can add, these are the primary drivers of value in our business.

Space		<ul style="list-style-type: none"> ■ % share of total market trading space ■ % space growth (% of existing space added in last 12 months) ■ Space pipeline (projected 3 year % space growth) ■ Format profitability (% trading margin by format)

* Measure of advocacy based on customer service data

There is still some work to be done in bedding down all relevant and measurable KPIs across our strategic objectives. We hope to publish key performance targets and our performance against them in the future.

Underpinning Group strategy, and the individual strategic priorities detailed above is the fundamental principle of doing good is good business. We will continue to do good in all the communities in which we operate, with a particular focus on enterprise development, and we will continue to do good for our environment – as we focus on rolling-out green innovations in our stores, reducing our carbon footprint and reducing our waste to landfill.

KEY RISKS AND CHALLENGES

We see the biggest risks and challenges to the successful delivery of any strategy as:

- A lack of integration across the business resulting in the weak delivery of a complex plan;
- A lack of critical skills and capabilities in key areas; and
- A failure to mobilise the organisation behind the required changes.

All of these challenges are well within our control and we are doing everything in our power to make sure that we don't fall down in these areas.

We are confident that the accurate and timely delivery of our strategy will make a marked difference to our customers' experience in our stores, which will drive our sales volumes and enable us to improve the efficiency of our business. As we reinvest much of these benefits back into our business, we will continue to drive our sales volumes, leading to continued, consistent and sustainable returns to our shareholders.

Supporting food security and a sustainable future

INTEGRATING SUSTAINABILITY INTO OUR CORE BUSINESS

The International Integrated Reporting Committee recommends that “a company present its strategy, governance, performance and prospects in a way that reflects the commercial, social and environmental context within which it operates”.

This section of our Integrated Annual Report specifically addresses our response to the social and environmental concerns that are shaping the retail industry in South Africa.

As a major retailer in South Africa, we strive to address socio-economic challenges through the supply of high quality, affordable food for all South Africans, whilst providing significant employment and economic opportunities across our value chain.

A wide range of environmental, social and governance trends are combining to create new commercial and socioeconomic challenges, which continue to redefine the role we have to play in South Africa.

From an economic and environmental perspective:

- Rising energy prices continue to increase our operating costs. We continue to reduce electricity usage, cut down on non-essential corporate travel, and further optimise our logistics and distribution network.
- We believe that the continued volatility of global commodity prices and limited global resources will continue to put upward pressure on food prices.
- Soil fertility, water demand, fertiliser prices and erratic rainfall, are just some of the issues which are of key concern to our local produce suppliers, and all will continue to impact on our ability to provide quality food at affordable prices.
- We believe that partnerships will become increasingly important in addressing social and environmental challenges. We will continue to pursue opportunities in this regard. A good example of this is the Organic Farmer and Retailer programme, an initiative between Pick n Pay, Spar, Shoprite, and the

Department of Trade and Industry to facilitate the supply of organic produce from emerging farmers.

- The potential carbon tax raised in the SA Treasury’s Green Paper will have implications for our operating costs, as well as affect the disposable income of our customers in lower LSM categories who spend a larger proportion of their income on energy.

From a social and governance perspective:

- The primary social issue in South Africa remains the continued high levels of economic disparity in our society. Our response is focused on food affordability and on initiatives that create and sustain jobs and small businesses within our supply chain.
- Consumer interest in green and ethical products remains strong. We continue our work and support in this area, and have earned significant recognition of our efforts in independent polls. While the demand for green and ethical products increases, consumers continue to expect price parity in the product offerings. Our attention is therefore focused on meeting these dual requirements.
- The world-wide activism that gained much media attention in the past year has been comparatively limited in South Africa. We do however continue to engage actively with our stakeholders, including customers, on all our social initiatives. We appreciate the continued feedback from our stakeholders on issues of concern, and have developed strong systems to ensure our response is timely and well-directed.
- Governance and disclosure requirements continue to be developed and enhanced. Demand for greater transparency, accountability and transformation are expected to increase across the full value chain over the coming years.

Based on these trends, Pick n Pay’s sustainability strategy is framed around six strategic focus areas. Each of these focus areas aligns with our overarching commitment to work towards greater food security and a sustainable future:

Supporting food security and a sustainable future

continued

Providing safe food and expanding sustainable product lines

Providing a resilient supply base

Empowering our people

Enhancing governance and accountability

Supporting our communities in their contribution to change

Working for a clean and healthy environment

All of our sustainability initiatives are directed at increasing the resilience of our business, through encouraging innovative thinking, partnerships and the transformation of systems and processes. We will continue to improve and grow, to ensure that we not only become the retailer of choice for all South Africans, but that we lead by example, as a strong and principled corporate citizen, playing an integral role in building a strong and successful South Africa.

This review provides a brief, high level overview of our sustainability initiatives and performance. Further detail may be accessed on our website at www.picknpay-ir.co.za/sustainability-reports.php.

SUSTAINABILITY FOCUS: PROVIDING SAFE FOOD AND EXPANDING SUSTAINABLE PRODUCT LINES

Customers know and trust Pick n Pay branded products because they deliver on our promises of good quality and value for money. We strive to not only deliver safe, quality products to our consumers but also to ensure the welfare of the animals and environment that supports us. We regularly audit our key corporate brand suppliers along strict health and safety guidelines, to ensure food safety. In addition we work closely with many suppliers to ensure that we share a common vision to promote and expand ethical and sustainable product lines.

Achievements include:

- Pick n Pay was the first retailer in South Africa to commit to sell only sustainably sourced seafood by 2015.
- The launch of 21 new organic food products.
- The launch of our "Finest" range encompassing over 200 products. All ingredients used in these products are assessed for quality, value, availability, the carbon footprint in respect of its transport and manufacture, and any possible allergens.

Key challenges include:

- Supporting efforts to address food security while acknowledging and balancing the concerns and interests of all stakeholders.
- We continue to look for opportunities to reduce the ecological footprint of the packaging of Pick n Pay corporate brands.
- Ensuring compliance with new legislation and regulations, including the Consumer Protection Act, no 68 of 2008 and new labelling regulations.

SUSTAINABILITY FOCUS: BUILDING A RESILIENT SUPPLY BASE

We continue to work closely with suppliers to ensure the sustainability of our supply base, with enterprise development remaining a clear focus. We support the agricultural sector through our efforts to address the challenge of market access for emerging farmers.

Achievements include:

- Our Pick n Pay small business incubator now provides ongoing mentorship to more than 50 small businesses.
- Through our Enterprise Development Foundation 33 emerging entrepreneurs have been able to gain access to markets through our stores during the past year.
- We have completed an initial supply chain risk assessment, in order to quantify the possible impact external environmental trends could have on our business, including the effect of scarce natural resources, pollutants and increased green house gases.

Key challenges include:

- Communicating sustainability risks, opportunities and requirements to all our suppliers.
- Mapping environment-related risks in our supply chain. This is an ongoing process that is yielding interesting and significant results – a key challenge is incorporating this information into our decision-making to build greater resilience in our supply base.

SUSTAINABILITY FOCUS: EMPOWERING OUR PEOPLE

We have a robust career development framework in place that emphasises training and competence. This meets business needs while empowering employees to grow their potential.

Achievements include:

- Foundational 'adult basic education and training' literacy programmes are now incorporating retail-specific concepts.
- We have aligned our trainee manager programme and assessments to new standard operating procedures.
- Training courses based on assessment centre results that are mandatory for promotion have been prioritised and scheduled to meet business needs.

Key challenges include:

- Managing the capacity of business units to achieve the required volume and quality of training due to other operational demands.

SUSTAINABILITY FOCUS: SUPPORTING COMMUNITIES IN THEIR CONTRIBUTION TO CHANGE

Partnerships remain a key strategic focus for the Group and through the Pick n Pay Ackerman Foundation (the "Foundation") we continue to support community-based projects with a potential for economic self-reliance and facilitate market access for small businesses.

The central values on which the Foundation's development work is built are:

- Encouraging the efficient use of natural resources;
- Creating prosperous livelihoods not jobs;
- Whole community focus;
- Support of start-ups (incubation);
- Support of ready-to-grow businesses (acceleration); and
- Facilitating economic sustainability and self-reliance.

Our multi-faceted approach, supporting communities, enterprises and individuals with a combination of expertise and experience, has seen projects grow from small community gardens to viable opportunities for economic independence.

Suppliers are encouraged to adopt improved environmental and social practices, and our procurement policies drive ethical welfare standards throughout our supply chain. The Foundation actively promotes the use of sustainable environmental practices throughout the value chain, using partnership models for sustainability-driven solutions. We include the important elements of sustainable practices socially, economically and environmentally when we assess projects.

Achievements include:

- We are providing permanent employment for 60 women through a small business initiative which manufactures eco-bags sold in our stores.
- The Pick n Pay Ackerman Foundation has supported and developed more than 36 small enterprises who are supplying Pick n Pay with products, goods and services.
- A dedicated programme to assist small suppliers with their compliance, a substantial challenge for small businesses, which includes water and soil testing, labelling, traceability journals and record keeping.

Key challenges include:

- Aligning enterprise development with the needs of business and supply chains.
- Measuring the impact of our initiatives.

SUSTAINABILITY FOCUS: WORKING FOR A CLEAN AND HEALTHY ENVIRONMENT

We have seen significant energy savings as a result of our completed roll-out of in-store energy efficiency initiatives and through optimising our logistics network. Our focus on waste is to be intensified.

Achievements include:

- We have reduced our carbon footprint by 4.6% compared to our 2011 scope. Our emissions intensity has improved by 11%.
- Daily automated feedback is provided to corporate stores to promote energy saving behaviour.
- We have started exploring the eligibility of some of our energy savings projects for inclusion under the Clean Development Mechanism (a mechanism for registering carbon credit projects).
- Our development of eco-friendly stores and ongoing commitment to climate change education were recognised when we won the Climate Change Leadership award in the retail category.
- Pick n Pay received the Africa Energy award for “Energy Project of the Year”.
- We also received the Eskom eta award for “Energy Efficiency Awareness”.

Key challenges include:

- Our main challenge in this focus area remains growing our business while significantly reducing our consumption and impact on natural resources.

WE FOUND GOODNESS IN ENDANGERED WILDLIFE

Pick n Pay’s relationship with the Hoedspruit Endangered Species Centre began in 2007 when the centre was struggling to raise an orphaned rhino calf in the midst of a countrywide milk shortage. Lente Roode, founder of the Centre, approached Pick n Pay who immediately provided milk powder to save the baby rhino.

Pick n Pay is one of the few corporate funders of the centre, which focuses on the conservation of threatened species, with cheetah conservation being one of its core missions.

Lente and her team are active in the breeding of endangered, vulnerable, or rare animal species; the education of learners, students and the public in conservation and conservation activities; eco-tourism; the release and establishment of captive-bred cheetahs back into the wild; and the treatment and rehabilitation of wild animals.

Pick n Pay also sponsors the annual Hoedspruit Sustainability Festival which gives the area a chance to showcase its work and commitment to vulnerable species.

Selected notes to the summarised financial statements

for the year ended 29 February 2012

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The summarised annual financial statements for the year ended 29 February 2012 have been prepared in accordance with IAS 34 and International Financial Reporting Standards (IFRS), the requirements of the South African Companies Act no. 71 of 2008, as amended, and in compliance with the Listings Requirements of the JSE Limited. Except as detailed in note 3, accounting policies used are consistent with those applied in the previous annual financial statements. These results have been audited by KPMG Inc., whose unqualified report is available for inspection at the registered office of the Company.

2. RELATED PARTIES

During the year, certain companies within the Group entered into transactions with each other. These intra-group transactions are eliminated on consolidation. For further information please refer to note 28 of the Annual Financial Statements.

3. REVENUE AND PRIOR YEAR ADJUSTMENT

Revenue comprises turnover, other trading income and interest received.

The Group has reviewed the terms of its franchise agreements in Botswana, Lesotho and Swaziland, and the interpretation of its role in the supply of inventory to those franchisees.

In the past, Pick n Pay purchased inventory on behalf of its franchisees and sold this onto the franchisees at no margin. As such, the accounting treatment of the transaction was to recognise the purchases as part of Group cost of merchandise sold and the sales as part of Group turnover, with no impact on gross profit.

The substance of the relationship has changed over time, with the franchisees ordering and receiving directly from suppliers, albeit facilitated through the Pick n Pay supply chain.

We believe it more appropriate therefore, to reflect Pick n Pay's role in the transaction as that of an agent, earning a franchise fee only. Therefore we will no longer be recognising the turnover and corresponding cost of merchandise sold in the Group statement of comprehensive income. Prior year disclosures have been adjusted accordingly as follows:

	GROUP		
	As previously stated 2011 Rm	Prior year adjustment 2011 Rm	As restated 2011 Rm
Revenue	52 216.7	(760.8)	51 455.9
Turnover	51 945.8	(760.8)	51 185.0
Cost of merchandise sold	(42 859.6)	760.8	(42 098.8)
Gross profit	9 086.2	—	9 086.2

No restatement of the prior year statement of financial position is required as the prior year adjustment has had no impact on earnings.

5. INVESTMENT IN ASSOCIATE

In February 2012, the Group subscribed for a further 24% stake in TM Supermarkets (Pvt) Limited (TM) for US\$13 million (R102.5 million), taking its total investment in TM to 49%, being the maximum foreign shareholding allowed in terms of Zimbabwean legislation. TM will use the proceeds received to refurbish existing stores and to develop local procurement processes. The Group has great confidence in TM's management team and in its business model and with the guidance from Pick n Pay, they are well placed to help grow the business and to expand their footprint in Zimbabwe. The economic environment has stabilised somewhat in Zimbabwe and although TM is currently incurring operating losses, our share for the year being R1.9 million, detailed five-year turnover and cash flow forecasts do not indicate any impairment in the value of our investment.

6. DISCONTINUED OPERATION

Interfrank Group Holdings Pty Ltd (Franklins)

In September 2011, after a lengthy legal dispute with the Australian Competition and Consumer Commission, the Group sold its Australian business, Franklins, to Metcash Limited for R1.2 billion, net of fees. The sale of Franklins has enabled us to focus entirely on our southern African operations, with the cash proceeds being utilised directly in these core retail operations. Franklins is disclosed as a discontinued operation, with its results from operations for the previous year and the seven months to 30 September 2011 and the subsequent profit on sale of the business being disclosed separately from continuing operations.

Corporate governance report

Pick n Pay Stores Limited

The Board of directors and senior management are committed to the highest standards of corporate governance and take pride in our high moral and ethical business standards. The Group is committed to sound and transparent business practices. The Board is committed to complying, in all material respects, with the principles contained in the King Code of Corporate Practices and Conduct (King III), as well as to the additional requirements for good corporate governance stipulated in the JSE SRI Index. We have performed a thorough review of the implications of King III, and where appropriate, the corporate governance structure has been amended to comply with King III, which became effective on 1 March 2010. An overview of the Group's corporate governance framework is provided below including a section at the end dealing with the aspects of King III still under review.

A more comprehensive review – with details of all Board and committee charters, and roles and responsibilities of the

Chairman, CEO and management – is available in the investor relations section of our website (www.picknpay-ir.co.za).

This report applies to Pick n Pay Stores Limited and where applicable to Pick n Pay Holdings Limited.

GROUP GOVERNANCE STRUCTURE

The Group has a flat organisational structure and overall responsibility lies with the Pick n Pay Stores Limited Board. The CEO is responsible for the day-to-day operations of the Group and to assist him in discharging his responsibility there is a Group Executive board. The Group Executive is chaired by the CEO (Gareth Ackerman has stepped in as acting CEO until a suitable replacement for Nick Badminton has been found) and consists of 10 key management personnel representing the core segments of the business. The main function of the Group Executive is to align each core segment of the business with the overall Group strategy.

THE BOARD

The Board would ordinarily comprise eight non-executive directors and four executive directors. However, we appointed Richard van Rensburg as deputy CEO on 1 October 2011 to take responsibility for the implementation of our transformation strategy. In addition, on the resignation of our outgoing CEO, Nick Badminton, effective 29 February 2012, our Chairman, Gareth Ackerman, assumed an interim executive role in the business as executive Chairman and acting CEO. Gareth will perform this executive role until the CEO position is filled. As such, we currently have six non-executive directors and five executive directors.

The Board is responsible for selecting a qualified management team, approving corporate strategy, monitoring and assessing performance, and acting as a source for management in matters of planning and policy. The Board is responsible for setting the governance policies and practices for the Group, and for appointing the Chairman and CEO, whose roles are traditionally separate. The Board meets four times a year to monitor the performance of the Group, its executive directors and senior management.

The Board performs an annual self-assessment of its performance and the results thereof are made available to the external auditors. The Board has a responsibility to ensure that internal controls over operations and finance have been implemented, are continuously monitored and are functioning effectively. The Board is not aware of any issue that would suggest that internal controls have had a material breakdown during the financial year concerned.

Appointment of directors

New appointments to the Board are considered by the Board as a whole, on the recommendation of the nominations committee. When appointing a director, the Board considers the findings of the nominations committee in terms of the directors' ability to lead, requisite knowledge, relevant experience and independence. It is important that the appointment ensures the necessary balance of power (majority of directors to be independent non-executives) and also introduces new skills and expertise to supplement and or replace existing skills and experience of Board members.

Background and reference checks are performed by the nominations committee before the nomination of a director. The qualifications and experience of directors are presented on pages 14 and 15. Directors serve three-year terms after which they are required to retire at the AGM but may offer themselves for re-election. At the end of each three-year term the director is evaluated by the Chairman and will only be put forward for re-election by mutual consent of the Chairman and the respective director.

The appointment of all directors to the Board requires shareholder approval at the AGM. On appointment to the Board a new director is required to retire and offer themselves for re-election to the Board by shareholders at the first AGM following their appointment.

Independence of non-executive directors

With the implementation of King III, all non-executive directors classified as independent will undergo an annual evaluation of their independence based on the guidelines provided by King III. Directors serving terms greater than nine years will undergo a rigorous review of their independence.

The majority of non-executive directors are independent in terms of King III. Gareth Ackerman (although temporarily performing an executive role) and David Robins are not considered independent by virtue of their relationship with the Group's ultimate controlling shareholder. The remaining non-executive directors are considered independent. The Board has considered the independence of Messrs Hugh Herman and Ben van der Ross in light of their years of service and is satisfied that their independence remains intact.

Enduring principles of Pick n Pay

The Board has a responsibility to ensure that the following core principles of the Group are maintained:

- Consumer sovereignty
- Doing good is good business
- Maintaining a discount image
- Fighting collusion among suppliers, and rejecting collusion between retailers
- Maintaining strong cash balances for buying forward on a rising market.

CHAIRMAN

The recommendation of King III is for the Chairman of the company to be an independent non-executive director. As Gareth Ackerman is not independent by virtue of his indirect shareholding, Hugh Herman has been appointed as Lead Independent Director (LID). All members of the Board have unfettered access to the LID when required.

CEO

The CEO is responsible and accountable to the Board for all Group operations. He has a formal role description (with limits of authority) from the Board, which is reviewed and reaffirmed annually. The Chairman evaluates the performance of the CEO annually, which is then discussed with the non-executive directors. The evaluation is based on objective criteria including performance of the business, accomplishment of long-term strategic objectives and management development.

The CEO reports to the Board on succession planning, with a defined succession plan in place should key executives or any of the senior management personnel need to be replaced. The CEO reports annually to the Board on the Group's programme and performance in respect of management development and employment equity.

Pick n Pay Stores Limited

Resignation of Nick Badminton

Nick Badminton resigned as CEO with effect 29 February 2012. As an interim measure, Gareth Ackerman has assumed the role of acting CEO and is assisted by deputy CEO Richard van Rensburg who is responsible for day-to-day operations. We are currently searching both locally and internationally for a suitable candidate who has both the experience and qualifications necessary to assume the position.

GROUP EXECUTIVE

The Group Executive consists of 10 key management personnel. The duties and responsibilities of each member of the Group Executive are detailed in a formal role description together with limits of authority. These are reviewed and approved annually by the CEO.

BOARD SUB-COMMITTEES

The Board is assisted by the following specialist committees: audit; remuneration; nominations; corporate governance; corporate finance and social and ethics. Each committee has a formal charter which is reviewed annually by the Board. Detailed information on each of the committees is available from our website (www.picknpay-ir.co.za).

A brief outline of the role and responsibility of each committee is provided below:

Audit committee

For details on this committee, please refer to the audit committee report on page 70.

Remuneration committee

For details on the composition and the role of the remuneration committee please refer to the remuneration report on page 72.

Nominations committee

The nominations committee is chaired by the Chairman and its members, Lorato Phalatse and Ben van der Ross, are non-executive directors. The committee identifies and evaluates potential candidates for appointment to the Board and has strict guidelines on the qualities required of directors. These qualities include being tough-minded, independent and objective, as well

as being loyal to the principles and values upon which the Group is built. The committee meets on an ad hoc basis.

Corporate governance committee

The corporate governance committee comprises Gareth Ackerman as Chairman, and Jeff van Rooyen. The committee meets with the Company Secretary and relevant members of the executive as required, ensuring that corporate governance structures are in line with national and international standards, and are both appropriate and effective.

Corporate finance committee

The corporate finance committee comprises Jeff van Rooyen as Chairman, Alex Mathole and Lorato Phalatse. The committee assesses and reports on investment opportunities for the Group.

Social and ethics committee

The Group has a social and ethics committee, with the mandate to monitor compliance with social, ethical and legal requirements, as well as best practice codes of conduct. The social and ethics committee will bring to the attention of the Board, and will report to shareholders, on relevant matters within the scope of its mandate. The Group's principle of "doing good is good business" will be the cornerstone of the work done by the committee.

Members appointed to the committee are: Suzanne Ackerman-Berman (Chair, executive director), Lorato Phalatse (non-executive director), Isaac Motaung (Group Executive), Debra Muller (Company Secretary), Charl Cowley (Group risk and assurance), Andre Nel (sustainability), Janis Bouwers (finance), Melinda White (food regulations) and Babalo Ndevu (transformation). The committee will meet quarterly. All members were present for the inaugural meeting held on 2 February 2012.

GROUP RISK AND ASSURANCE SERVICES

The internal audit function is carried out internally by Group Risk and Assurance Services (GRAS). The role of GRAS is to determine whether risk management and internal controls are adequate and functioning. GRAS makes use of enterprise-wide management software and records and monitors each divisions risk profile on the Company's risk register. GRAS reports bi-annually to the audit committee where the results of the audits conducted are reviewed.

RISK MANAGEMENT

The Board has recognised the importance of an effective risk management process and has adopted an enterprise-wide approach to risk management. This has resulted in the Company investing in an Enterprise Risk Management (ERM) software package. Risks identified are captured and rated in the ERM package, which houses the Company's risk register.

The Board is responsible and accountable for ensuring that adequate procedures and processes are in place to identify, assess, manage and monitor key business risks. The Board is assisted in its responsibilities by the audit committee, whose objective is to monitor, develop and communicate the process for managing risk across all divisions in the Group. The day-to-day responsibility for identifying, evaluating and managing risk resides with

management. The risk management process, which is regularly assessed by the audit committee, involves a formalised system to identify and assess risk, both at a strategic and operational level. The process includes the evaluation of the mitigating controls and other assurances in identifying and assessing the risks.

The Group's assets are insured against loss, with cover being taken out above predetermined self-insurance levels. In a disaster recovery circumstance, business continuity plans will ensure the business continues with the least amount of disruption, both from an information technology and operational viewpoint. These plans are reviewed and updated regularly.

A summary of major risks and mitigation strategies is presented in the table below and overleaf:

Strategic and market risk

Risk	Risk mitigation
Brand and reputation	The Group operates within a governance philosophy that seeks to protect and enhance our brand and reputation. A core to this philosophy is built upon the continued maintenance of ethical business practices and the highest level of integrity. Recent enhancements to the brand have been achieved through the new fresh Pick n Pay logo's, the relaunch of private label brands, the continuous improvement of the quality of fresh foods and the Pick n Pay Express stores initiative in partnership with BP South Africa. We are aware of the constant need to differentiate the brand from other competitors in terms of service offering and product range and this remains a key focus area.
Competition	The Group continuously monitors market trends in which it operates and sets its strategy accordingly to ensure that Pick n Pay remains the retailer of choice. Two main pillars of Group strategy are to defend and grow LSM 7 – 10 and bring Pick n Pay to LSM 4 – 7. The former has been achieved by listening to our customers and providing quality products and services at affordable prices. The latter has been achieved by the conversion of Score stores into black-owned Pick n Pay franchise stores and the opening of further stores in that market, both of which have allowed us to increase our share of the LSM 4 – 7 market. Boxer is also becoming a major player in that market. The Group also monitors the market for new entrants with plans in place to counter any new entrants. We are aware of the threat of foreign competition entering the market and to this end we have invested substantial capital in gearing up the business. The launch of the Smartshopper card as well as our world-class PnP on Nicol type store will enhance our position in the market.

Financial risk

Risk	Risk mitigation
Volatility of profit margins	Market conditions and its effect on profitability are continually reviewed by management and the Board. At all times, in an increasingly competitive marketplace, the drive for unit sales growth and cost efficiencies are the primary drivers to protect profit margins. The former is driven by a focus of striving for high levels of customer satisfaction.
Going concern	The going concern of the Group is reviewed by the Board at least twice a year and includes a review of adequate levels of capital to continue operations and implement strategy.
Liquidity and credit risk	Pick n Pay's statement of financial position is characterised by high levels of liquidity and a low debt ratio, supported by high levels of cash generation. Increasing credit risk as a result of an expanding franchise division is closely monitored and where appropriate remedial action taken. The Group's working capital liquidity is supported by committed banking facilities.

Operational risk

Risk	Risk mitigation
Product quality and third party liability	Merchandise is purchased from reputable suppliers. Product safety and quality is carefully scrutinised by our internal quality control and food safety technicians. Where any indications exist of a product flaw, the product is immediately uplifted and returned to the supplier. Appropriate levels of insurance are in place.
Safeguarding of assets	Group assets are insured against loss and business continuity plans are in place. All stores and distribution centres have surveillance cameras in place which are monitored to ensure the safe keeping of assets.
Supply chain	Pick n Pay places much emphasis on forging good relationships with suppliers to ensure that the partnership is mutually beneficial to both parties. Electronic Data Interchange (EDI) is in process to improve delivery and communication levels between Pick n Pay and suppliers. Central distribution is in place and has improved lead times and ensuring that out of stocks are minimised.

Legislative risk

Risk	Risk mitigation
Compliance with legislation	Pick n Pay has an in-house compliance officer to monitor and assess the impact of legislation on the business. This department makes use of external specialists and advice where necessary. Each business unit has a risk and compliance manager whose responsibility is to ensure compliance with current and impending legislation.

Sustainability risk

Risk	Risk mitigation
Sustainable food supply	The Group is well aware of the effects of climate change on food supply and supports initiatives that promote sustainable food supply. Examples of this are our involvement with SASSI and our extensive involvement in farming enterprise development to support small farmers.
Increased awareness of green issues	We constantly make our staff aware of the need to conserve energy usage and have instituted various energy saving initiatives such as the use of natural refrigerants over synthetic substances to reduce greenhouse emitting gasses. Our green store, PnP on Nicol, has world-class sustainability features and we are looking to open more stores like this in the future.
Energy security and utilities pricing	We are aware of the need to reduce usage of both electricity and fuel in the light of recent price increases and are constantly looking for ways to improve the consumption thereof. To significantly reduce energy usage from one of our largest energy consumers, refrigeration, we are in the process of installing new refrigeration technology.

CODE OF CONDUCT

The Group has endorsed a comprehensive code of conduct founded on the highest levels of honesty, integrity and respect. All employees are expected to comply with the code at all times. The Board confirms that systems and procedures have been implemented to entrench the values and ethics laid down in the code of conduct, and to monitor compliance with the code.

All new staff members receive training on the code of conduct at induction. These values are continually instilled through ongoing communication and training. A function of human resources is to monitor compliance with the code across the Group, to follow up complaints, to review disciplinary measures and the outcomes thereof, and to ensure the consistent application of disciplinary measures.

PARTY POLITICAL SUPPORT

While it is our policy to support social initiatives across party lines, we do not support any individual political party, financially or otherwise.

Aspects of King III under review

Over the next financial year the Board will consider application of the following King III proposals:

- Whether the Board's performance will be evaluated in-house or independently;
- Whether independent assurance of the sustainability report is required; and
- Whether internal audit will be subjected to an independent quality review.

The committee discharges all audit committee responsibilities of all the subsidiary companies within the Group. To help it discharge this responsibility, financial review committees, chaired by the CFO, review in detail the results of all material operating subsidiary companies with the external auditors and management of the respective subsidiary. These review committees report their findings to the Group audit committee.

The external and internal auditors have unrestricted access to the committee and all of its members throughout the year.

INDEPENDENCE OF EXTERNAL AUDITORS

The audit committee is satisfied as to the independence of the Group's external auditors, KPMG Inc. and its respective audit partners. The committee nominates KPMG as external auditor for the appointment by shareholders at the annual general meeting.

EXPERTISE AND EXPERIENCE OF CHIEF FINANCE OFFICER AND FINANCE FUNCTION

The audit committee is satisfied that Mr Bakar Jakoet, has the appropriate expertise and experience for his position of Chief Finance Officer of the Group. In addition, the committee is also satisfied that the composition, experience and skills of the finance function have met the Group's requirements.

APPROVAL OF THE AUDIT COMMITTEE REPORT

The committee confirms that it has functioned in accordance with its charter for the 2012 financial year and that its report to shareholders has been approved by the Board.

Remuneration committee report

Pick n Pay Stores Limited

This report sets out the Company's remuneration philosophy, the role of the remuneration committee, the remuneration structure of the Group, the remuneration and benefits granted to key executives during the 2012 financial year and the procedures followed in ensuring that remuneration practices adhere to appropriate corporate governance principles and ensure alignment with the Group's strategy. This report and the recommendations of the remuneration committee have been approved by the Board and will be submitted to shareholders for consideration at the AGM to be held on 15 June 2012.

REMUNERATION PHILOSOPHY

The Group's philosophy is to remunerate its employees fairly in relation to the market and nature of services they provide. Employees may attract above market related remuneration in order to retain skills and experience. The remuneration committee ensures that an appropriate portion of senior executive remuneration is performance related. The committee considers key performance indicators (KPIs) when setting executive director and senior management's short-term incentives. In addition to cash remuneration (base pay, retirement and medical, performance bonus, other fringe benefits), employees are afforded the opportunity to participate in Group share schemes, which align the interests of management to that of shareholders.

Further KPIs, linked to Group strategy, have been developed in respect of certain key executives and will be implemented in the 2013 financial year.

REMUNERATION COMMITTEE

The remuneration committee, which meets at least twice a year, is chaired by an independent non-executive director and comprises mainly non-executive directors. The committee operates in terms of a Board approved charter and its key responsibilities are as follows:

- To determine the remuneration packages of executive directors and to review the remuneration packages of senior management and key employees;
- To propose fees for non-executive directors, subject to shareholder approval;
- To approve performance related cash incentives as well as long-term share-based incentives; and
- To review the Group's remuneration philosophy and policies to ensure alignment with market practices.

REMUNERATION STRUCTURE

Remuneration comprises the following elements:

Base pay

The remuneration committee reviews the salaries of executive directors and senior management annually. They reflect the relative skill, experience, contribution, and performance of the individual. Base pay is set at levels which are competitive with the rest of the market so that the Group can attract, motivate and retain the right calibre of people to achieve the Group's strategic business objectives. Executive base pay is benchmarked to information disclosed in the remuneration reports of comparative organisations. Annual increases in the base pay are determined with reference to the scope of the employee's role, competence and performance of the employee as well as the projected consumer price index figures.

Retirement and medical

Pick n Pay contributes a total of 17.35% of salary towards retirement funding of executive directors and employees. In addition the Company also contributes towards medical aid. For further details please refer to note 23 on pages 47 to 51 of the Annual Financial Statements where retirement benefits are disclosed.

Performance bonus

Performance bonuses awarded to management are based on the Group and individual performance in achieving KPI targets such as budgets set by the Board; growth in headline earnings per share; growth in earnings before interest, tax, depreciation and amortisation and milestones attached to the implementation of Group strategy.

Other fringe benefits

Executive directors and management are granted the use of a company vehicle which includes service and maintenance, fuel and insurance. Vehicle bands vary according to various management levels. Senior management have the choice of accepting a car allowance in lieu of a company car which value is determined by the vehicle band associated to their level of management.

Share incentive schemes

The Group operates the 1997 Employee Share Option Scheme (the scheme) in order to facilitate broad-based employee share ownership and to foster trust and loyalty among employees. The scheme incentivises key management and staff by providing them with an opportunity to acquire shares in the Group, thereby aligning interests with shareholders and at the same time encouraging employee retention.

Long service share options – are granted to all permanent employees who have been with the Group for five years and further options are granted every five years thereafter. Long service share options may be taken-up immediately on granting.

During the financial year under review 2.2 million Pick n Pay Holdings Limited (PWK) share options were granted to employees

in respect of long service and at year-end 11.1 million PWK share options are held by employees which amounts to 2.1% of shares in issue.

Status share options – are granted to employees who attain manager status and further options are granted at each promotion to higher levels of management. In order to encourage employee retention, status shares may be taken up in three tranches as follows:

- 40% after three years
- 30% after five years
- 30% after seven years

During the financial year under review 6.2 million Pick n Pay Stores Limited (PIK) options were issued to management and at year-end 54.2 million PIK share options are held by employees which amounts to 11.3% of shares in issue.

Binary shares – are granted to key executives. These options may only be taken up when prescribed performance conditions linked to the growth of the PIK share price are met. If the conditions are not met, these options are automatically forfeited. Should further performance hurdles be achieved, discounted grant prices may apply. The last significant binary share issue was in October 2010 and 14.2 million binary share options remain in issue at 29 February 2012.

The salient features of the October 2010 binary issue are as follows:

Grant date	20 October 2010
Grant price	R41.23

Exercise date	23 May 2014	Annual compound growth rate	Exercise price
Eligibility hurdle	R65.28	12%	R41.23
Performance hurdle 1	R78.87	18%	R20.62
Performance hurdle 2	R97.25	25%	R1.00

If the 20-day volume weighted average share price (VWAP) up to 23 May 2014 is between R65.28 and R78.87, the options can be exercised at the full grant price of R41.23. Should this 20-day VWAP be less than R65.28 then the options will lapse. Thereafter, if performance hurdles are met, the discounted grant prices will apply on exercise.

Based on the nature and terms of this agreement, the remuneration committee recommended a restraint of trade payment of R10.1 million as compensation for the two-year period.

Non-executive directors' fees

In respect of non-executive directors, the remuneration committee proposes fees to be paid for the membership of Board and Board committees. Such fees are market related, commensurate with the time required to undertake their duties and must be approved by the Board and shareholders. Approved fees are set for the year and are not subject to attendance at each meeting as generally attendance at Board meetings is very good. Such remuneration is not linked to the performance of the Group or its share performance. Specifically, non-executive directors do not receive performance related bonuses and are not granted share options. The fees for 2012 were approved by shareholders in the AGM held on 10 June 2011 and the proposed fees for 2013 will be submitted to shareholders for approval in the AGM to be held on 15 June 2012.

Corporate governance report

Pick n Pay Holdings Limited

This report deals with the corporate governance of Pick n Pay Holdings Limited which is the controlling company of Pick n Pay Stores Limited. The Company has minimal operating activities and the majority of the operating activities occur in Pick n Pay Stores Limited. Please note that only principles specific to Pick n Pay Holdings Limited are dealt with in this report as the majority of the principles have already been discussed in the Pick n Pay Stores Limited corporate governance report.

DIRECTORS

The Board comprises six directors who are all non-executive. In addition, there are three alternate directors who are available to step in for a non-executive director should the need arise. One of the six non-executive directors (Gareth Ackerman) is an executive director of Pick n Pay Stores Limited. As the Chairman, Raymond Ackerman, is not independent, Hugh Herman has been appointed as the Lead Independent Director (LID). All members of the Board have unfettered access to the LID when required.

APPOINTMENT OF DIRECTORS

The appointment of all directors to the Board requires shareholder approval at the AGM. On appointment to the Board a new director is required to retire and offer themselves for re-election to the Board by shareholders at the first AGM following their original appointment.

INDEPENDENCE OF DIRECTORS

Hugh Herman; René de Wet and Jeff van Rooyen are independent in terms of King III. Their independence has been thoroughly scrutinised given their years of service on the Board. Gareth Ackerman is not independent due to his relationship with the Group's ultimate controlling shareholder.

BOARD SUB-COMMITTEES

Pick n Pay Holdings has a separate audit committee consisting of non-executive directors but it does not have separate remuneration, risk, nomination, corporate governance and social and ethics committees as the tasks relating to these committees are undertaken by the Group as a whole.

REMUNERATION REPORT

No separate remuneration report is presented as the only remuneration paid by the Company is non-executive directors' remuneration which is approved by the Board as a whole.

Fees for the current year and proposed for next year, for Board members not serving on the Stores Board, are as follows:

	Proposed 2013 R	2012 R
Fees	57 000	53 000

ASPECTS OF KING III UNDER REVIEW

Over the next financial year the Group will consider application of the following King III items:

- The Pick n Pay Holdings Limited Board of directors currently does not comply with the minimum requirement of two executive directors per King III. In this regard, Pick n Pay has been granted dispensation by the JSE as it is felt that there would be little benefit obtained from the appointment of executive directors as the Company has no material operating activities other than the receipt of and payment of dividends and assessment of the carrying value of its only investment in Pick n Pay Stores Limited.
- The majority of the directors are not independent and the structure is currently under review by the Board. The Board has made progress in this regard with the appointment of Jeff van Rooyen as a non-executive director on 1 May 2011.

WE FOUND GOODNESS IN ROAD RUNNING

Running a retail business isn't just about providing a place for people to shop; it's also about building relationships.

We all know sport is good for us, but for some children it's hard to find a programme where they can get outside and exercise.

Research shows that children involved in sport often do better at school, are more focused, and set themselves higher goals. Yet, for many children in disadvantaged areas taking part in sport is just a dream.

That's why Pick n Pay is a proud sponsor of the SA Junior Road Running Series consisting of five races that take place mainly in the townships. These 2.5km and 5km races have seen countless aspiring athletes take up this challenge.

Funds raised by the Road Running Series go towards the development of various provincial road running associations.

As between Directors of equal seniority, the Directors to retire shall, in the absence of agreement, be selected from among them by lot. Retiring Directors shall be eligible for re-election. No Person other than a Director retiring at the Meeting shall, unless recommended by the Directors for election, be eligible for election to the office of Director at any Annual General Meeting unless, not less than 7 (seven) days nor more than 14 (fourteen) days before the day appointed for the Meeting, the secretary has received notice In Writing by a Holder duly qualified to be present and vote at the Meeting of the intention of the Holder to propose such Person for election and also notice In Writing signed by the Person to be proposed of her/his willingness to be elected.  - the vacancy is filled only if a majority of the Voting Rights exercised support the candidate.

A Director or Alternate Director so elected shall serve for a term of 3 (three) years.  - (b) enter into a transaction contemplated in section 112, 113, or 114,
- that notice must include a statement informing shareholders of their rights under this section.
- (3) At any time before a resolution referred to in subsection (2) is to be voted on, a dissenting shareholder may give the company a written notice objecting to the resolution.
- (4) Within 10 business days after a company has adopted a resolution contemplated in this section, the company must send a notice that the resolution has been adopted to each shareholder who –
- (a) gave the company a written notice of objection in terms of subsection (3); and
 - (b) has neither –
 - (i) withdrawn that notice; or
 - (ii) voted in support of the resolution.
- (5) A shareholder may demand that the company pay the shareholder the fair value for all of the shares of the company held by that person if –

 - (c) the shareholder –
 - (i) voted against that resolution; and
 - (ii) has complied with all of the procedural requirements of this section.
- (6) The requirement of subsection (5)(a)(i) does not apply if the company failed to give notice of the meeting, or failed to include in that notice a statement of the shareholders rights under this section.
- (7) A shareholder who satisfies the requirements of subsection (5) may make a demand contemplated in that subsection by delivering a written notice to the company within –
- (a) 20 business days after receiving a notice under subsection (4); or
 - (b) if the shareholder does not receive a notice under subsection (4), within 20 business days after learning that the resolution has been adopted.
- (8) A demand delivered in terms of subsections (5) to (7) must also be delivered to the Panel, and must state –
- (a) the shareholder's name and address;
 - (b) the number and class of shares in respect of which the shareholder seeks payment; and
 - (c) a demand for payment of the fair value of those shares.
- (9) A shareholder who has sent a demand in terms of subsections (5) to (8) has no further rights in respect of those shares, other than to be paid their fair value, unless –
- (a) the shareholder withdraws that demand before the company makes an offer under subsection (11), or allows an offer made by the company to lapse, as contemplated in subsection (12)(b);
 - (b) the company fails to make an offer in accordance with subsection (11) and the shareholder withdraws the demand; or
 - (c) the company, by a subsequent special resolution, revokes the adopted resolution that gave rise to the shareholder's rights under this section.
- (10) If any of the events contemplated in subsection (9) occur, all of the shareholder's rights in respect of the shares are reinstated without interruption.
- (11) Within five business days after the later of –

- (12) Every offer made under subsection (11) –
- (a) in respect of shares of the same class or series must be on the same terms; and

- (a) the shareholder must either in the case of –
 - (i) shares evidenced by certificates, tender the relevant share certificates to the company or the company's transfer agent; or
 - (ii) uncertificated shares, take the steps required in terms of Section 53 to direct the transfer of those shares to the company or the company's transfer agent; and

- (b) the company must pay that shareholder the agreed amount within 10 business days after the shareholder accepted the offer and –
 - (i) tendered the share certificates; or
 - (ii) directed the transfer to the company of uncertificated shares.
- (14) A shareholder who has made a demand in terms of subsections (5) to (8) may apply to a court to determine a fair value in respect of the shares that were the subject of that demand, and an order requiring the company to pay the shareholder the fair value so determined, if the company has –
 - (a) failed to make an offer under subsection (11); or
 - (b) made an offer that the shareholder considers to be inadequate, and that offer has not lapsed.
- (15) On an application to the court under subsection (14) –
 - (a) all dissenting shareholders who have not accepted an offer from the company as at the date of the application must be joined as parties and are bound by the decision of the court;
 - (b) the company must notify each affected dissenting shareholder of the date, place and consequences of the application and of their right to participate in the court proceedings; and
 - (c) the court –
 - (i) may determine whether any other person is a dissenting shareholder who should be joined as a party;
 - (ii) must determine a fair value in respect of the shares of all dissenting shareholders, subject to subsection (16);
 - (iii) in its discretion may –
 - (aa) appoint one or more appraisers to assist it in determining the fair value in respect of the shares; or
 - (bb) allow a reasonable rate of interest on the amount payable to each dissenting shareholder from the date the action approved by the resolution is effective, until the date of payment;
 - (iv) may make an appropriate order of costs, having regard to any offer made by the company, and the final determination of the fair value by the court; and
 - (v) must make an order requiring –
 - (aa) the dissenting shareholders to either withdraw their respective demands or to comply with subsection (13)(a); and
 - (bb) the company to pay the fair value in respect of their shares to each dissenting shareholder who complies with subsection (13)(a), subject to any conditions the court considers necessary to ensure that the company fulfils its obligations under this section.
- (15A) At any time before the court has made an order contemplated in subsection (15)(c)(v), a dissenting shareholder may accept the offer made by the company in terms of subsection (11), in which case –
 - (a) that shareholder must comply with the requirements of subsection 13(a); and
 - (b) the company must comply with the requirements of subsection 13(b).
- (16) The fair value in respect of any shares must be determined as at the date on which, and time immediately before, the company adopted the resolution that gave rise to a shareholder's rights under this section.
- (17) If there are reasonable grounds to believe that compliance by a company with subsection (13)(b), or with a court order in terms of subsection (15)(c)(v) (bb), would result in the company being unable to pay its debts as they fall due and payable for the ensuing 12 months –
 - (a) the company may apply to a court for an order varying the company's obligations in terms of the relevant subsection; and
 - (b) the court may make an order that –
 - (i) is just and equitable, having regard to the financial circumstances of the company; and
 - (ii) ensures that the person to whom the company owes money in terms of this section is paid at the earliest possible date compatible with the company satisfying its other financial obligations as they fall due and payable.
- (18) If the resolution that gave rise to a shareholder's rights under this section authorised the company to amalgamate or merge with one or more other companies, such that the company whose shares are the subject of a demand in terms of this section has ceased to exist, the obligations of that company under this section are obligations of the successor to that company resulting from the amalgamation or merger.
- (19) For greater certainty, the making of a demand, tendering of shares and payment by a company to a shareholder in terms of this section do not constitute a distribution by the company, or an acquisition of its shares by the company within the meaning of Section 48, and therefore are not subject to –
 - (a) the provisions of that section; or
 - (b) the application by the company of the solvency and liquidity test set out in Section 4.
- (20) Except to the extent–
 - (a) expressly provided in this section; or
 - (b) that the Panel rules otherwise in a particular case,
 a payment by a company to a shareholder in terms of this section does not obligate any person to make a comparable offer under Section 125 to any other person.

Accordingly, only shareholders who are registered in the register of members of the Company on Friday, 8 June 2012 will be entitled to participate in and vote at the annual general meeting.

Until the South African Companies Act, no. 71 of 2008, as amended (the 2008 Companies Act), came into effect on 1 May 2011, the Memorandum of Incorporation (MOI) of the

Company comprised its Memorandum of Association and its Articles of Association. Under the 2008 Companies Act the MOI will be a single document. On the date that the 2008 Companies Act came into effect, the Memorandum of Association and Articles of Association of the Company automatically converted into the Company's MOI. Accordingly, for consistency of reference in this notice of annual general meeting, the term "MOI" or "Memorandum of Incorporation" is used throughout to refer to the Company's Memorandum of Incorporation.

The purpose of the annual general meeting is for the following business to be transacted and for the following special and ordinary resolutions to be proposed:

6. SPECIAL RESOLUTION NUMBER 1
New Memorandum of Incorporation

"RESOLVED AS A SPECIAL RESOLUTION to abrogate in its entirety the Company's existing Memorandum of Incorporation and to replace it with a new Memorandum of

Notice of annual general meeting continued

Pick n Pay Stores Limited

Incorporation (a draft of which has been tabled at the annual general meeting and initialled by the chairperson of the annual general meeting for identification purposes)."

A summary of the salient features (which in the Company's view might be thought to be material) of the proposed new MOI is set out on pages 84 to 90 of the Integrated Annual Report to assist shareholders to make a considered assessment in deciding how to vote.

Shareholders are alerted to their rights in terms of Section 164 read with Section 37(8) of the Companies Act in terms of which, if any of the amendments proposed in the new MOI will materially and adversely alter the preferences, rights, limitations or other terms of the Company's shares, then at any time before this resolution is to be voted on, a dissenting shareholder may give the Company a written notice objecting to this resolution and such dissenting shareholder will have the rights more fully set out in Section 164 of the Companies Act. A copy of the relevant portions of Section 164 of the Companies Act is set out on pages 98 and 99 of this Integrated Annual Report. The Company has not, in preparing the summary of the salient features of the proposed new MOI, considered which, if any, of the changes to be made by the proposed new MOI to the existing MOI might be considered by shareholders to be adverse as contemplated in Section 164 of the Companies Act. Shareholders should conduct their own detailed analysis and comparison of the Company's existing MOI and the proposed new MOI.

The full text of the proposed new MOI and a copy of the existing MOI are available on the Company website at www.picknpay-ir.co.za. Alternatively shareholders can request a copy of the proposed new MOI to be posted to them or emailed to them by contacting Debra Muller by telephone on 021 658 1000, or by email at demuller@pnp.co.za, or by post at PO Box 23087, Claremont, 7735.

The reason for special resolution number 1 is to bring the Company's incorporation documents into harmony with the provisions of the 2008 Companies Act and to deal with the effect of the 2008 Companies Act. The Company has also used this opportunity to thoroughly review of the contents of the existing MOI and to update, amend or omit parts thereof as necessary, unrelated to the introduction of the 2008 Companies Act. The passing of this special resolution will have the effect of replacing the Company's existing MOI with the new MOI referred to in special resolution number 1.

7. SPECIAL RESOLUTION NUMBER 2

Directors' fees for the year ending 28 February 2013

"RESOLVED AS A SPECIAL RESOLUTION that the directors' fees, to be paid to the directors in their capacity as directors only, for the year ending 28 February 2013 (alternatively for the year ending 29 February 2012 as applicable), be as follows:

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five percent) of the voting rights to be cast on the resolution.

8. SPECIAL RESOLUTION NUMBER 3

Provision of financial assistance to related or inter-related companies and others

"RESOLVED AS A SPECIAL RESOLUTION that in terms of and subject to the provisions of section 45 of the Companies Act, the shareholders of the Company hereby approve, as a

general approval (subject to the requirements of the Company's Memorandum of Incorporation and the Companies Act from time to time) and subject to compliance with Section 45 of the Companies Act at any time and from time to time, the provision by the Company of any direct or indirect financial assistance as contemplated in Section 45 of the Companies Act, to a director or prescribed officer of the Company or of a related or inter-related company, or to any 1 (one) or more related or inter-related companies, or to a member of a related or inter-related company or corporation on such terms and conditions as the board of directors of the Company, or any 1 (one) or more persons authorised by the board of directors of the Company from time to time for such purpose, may deem fit, in the form, nature and extent, and for the amounts that the Board of directors of the Company, or any 1 (one) or more persons authorised by the Board of directors of the Company from time to time for such purpose, may determine from time to time. To the extent which the Companies Act requires any other approval by the shareholders of the Company pursuant to the provision of financial assistance, such approval is hereby granted. This general authority will be valid up to and including the day before the second anniversary of this special resolution being adopted or until superseded by another special resolution, whichever period is shorter."

NOTES ON THE INTERPRETATION OF SPECIAL RESOLUTION NUMBER 3:

"financial assistance" will have the meaning attributed to it in Section 45(1) of the 2008 Companies Act; and "related" and "inter-related" will have the meanings so attributed in Section 2 of the 2008 Companies Act.

The reason for this special resolution is to obtain shareholder approval for financial assistance, when the need arises, to any director or prescribed officer of the Company, as well as to any related or inter-related companies in accordance with Section 45 of the 2008 Companies Act.

This special resolution will allow the Company to continue to operate as it has in the past, providing financial assistance to companies within the Pick n Pay Group, on the basis of certain day-to-day operational decisions where the Company previously was not required to obtain shareholders' approval or consent.

In addition, this special resolution allows the Company to continue with its existing policy of providing financial assistance to directors and prescribed officers or members or related persons. The existing policy is limited to housing loans

to executives and management of the Group. In terms of this policy, no loans are extended to non-executive directors or to related parties. All loans are secured against the employee's retirement funding. The summary contained in note 12 to the Annual Financial Statements on page 39, summarises the policy as follows: "Loans to directors and employees are secured, bear interest at varying rates subject to a maximum rate of 8% (2011: 8%) and have varying repayment terms." The Company does not intend to amend this policy in the foreseeable future.

The passing of this special resolution will have the effect of the Company having the necessary authority to provide financial assistance to the persons contemplated in this special resolution as and when required to do so and to confer the necessary authority on the board of directors of the Company to authorise financial assistance to:

- a director or prescribed officer of the Company or of a related or inter-related company; or
- any 1 (one) or more related or inter-related company, or to a member of a related or inter-related company or corporation,

generally as the Board of directors of the Company may deem fit, on the terms and conditions, and for the amounts that the Board of directors of the Company may determine from time to time. The granting of the general authority would obviate the need to refer each instance of provision of financial assistance for shareholder approval in the circumstances contemplated in this special resolution. This general authority would assist the Company with, inter alia, making financial assistance available to directors or prescribed officers in terms of existing Company policy, as well as inter-company loans to subsidiaries of the Company, or inter-related companies, as well as granting letters of support and guarantees in appropriate circumstances. This would avoid undue delays and attendant adverse financial impact on subsidiaries, or related or inter-related companies, as it would facilitate the expeditious conclusion of negotiations.

If this special resolution is approved by the shareholders of the Company, thereby conferring general authority on the Board of directors of the Company to authorise financial assistance as contemplated above, then the Board of directors of the Company shall not adopt any resolution to authorise such financial assistance as contemplated in this special resolution unless the Board of directors of the Company:

- is satisfied that immediately after providing such financial assistance, the Company will satisfy the solvency and liquidity test as referred to in Section 45(3)(b)(i) of the Companies Act; and

Notice of annual general meeting continued

Pick n Pay Stores Limited

- is satisfied that the terms under which such financial assistance is proposed to be given are fair and reasonable to the Company as contemplated in Section 45(3)(b)(ii) of the Companies Act; and
- has ensured that, to the extent which may be applicable, any conditions or restrictions in respect of the granting of financial assistance set out in the Company's MOI have been satisfied as contemplated in Section 45(4) of the Companies Act.

This special resolution does not authorise the provision of financial assistance to a person related to a member of a related or inter-related company.

In the circumstances and for the purposes contemplated above, it is necessary to obtain the approval of the shareholders, as set out in this special resolution.

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five percent) of the voting rights to be cast on the resolution.

9. SPECIAL RESOLUTION NUMBER 4

General approval to repurchase Company shares

"RESOLVED AS A SPECIAL RESOLUTION that the Company hereby approves, as a general approval, the acquisition by the Company or any of its subsidiaries from time to time of the issued shares of the Company or its holding company, upon such terms and conditions and in such amounts as the directors of the Company may from time to time determine, but subject to the Memorandum of Incorporation of the Company, the provisions of the Companies Act, no. 71 of 2008, as amended, and the JSE Limited (JSE) Listings Requirements (JSE Listings Requirements) as presently constituted and which may be amended from time to time, and provided that acquisitions by the Company and its subsidiaries of shares in the capital of the Company or its holding company may not, in the aggregate, exceed in any one financial year 5% (five percent) of the Company's issued share capital of the class of repurchased shares from the date of the grant of this general approval.

Additional requirements imposed by the JSE Listings Requirements

It is recorded that the Company or its subsidiaries may only make a general acquisition of shares if the following JSE Listings Requirements are met:

- any such acquisition of shares shall be effected through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the Company or its subsidiaries and the counterparty or in any other manner approved by the JSE;

- the general approval shall only be valid until the Company's next annual general meeting, or for 15 (fifteen) months from the date of passing of this special resolution, whichever period is shorter;
- a paid press announcement will be published as soon as the Company and/or its subsidiaries has/have acquired shares in terms of this authority constituting, on a cumulative basis, 3% (three percent) of the number of shares of the class of shares acquired in issue at the time of granting of this general approval and for each 3% (three percent) in aggregate of the initial number of that class of shares acquired thereafter, which announcement shall contain full details of such acquisitions as required by paragraph 11.27 of the JSE Listings Requirements;
- in determining the price at which shares are acquired by the Company or its subsidiaries in terms of this general approval, the maximum price at which such shares may be acquired may not be greater than 10% (ten percent) above the weighted average of the market value at which such shares are traded on the JSE, as determined over the 5 (five) business days immediately preceding the date of the acquisition of such shares by the Company or its subsidiaries;
- in the case of a derivative (as contemplated in the JSE Listings Requirements), the price of the derivative shall be subject to the limitations set out in paragraph 5.84(a) of the JSE Listings Requirements;
- a resolution by the Board of directors of the Company that they authorised the repurchase, that the Company passed the solvency and liquidity test and that since the test was done there have been no material changes to the financial position of the Group; and
- the Company and/or its subsidiaries may not repurchase any shares in terms of this authority during a prohibited period, as defined in the JSE Listings Requirements, unless there is in place a repurchase programme where dates and quantities of shares to be traded during the prohibited period are fixed and full details of the programme have been disclosed in an announcement over SENS prior to the commencement of the prohibited period.

Statement by the Board of directors of the Company

Pursuant to, and in terms of, the JSE Listings Requirements the Board of directors of the Company hereby states that:

- the intention of the directors of the Company is to utilise the general approval to repurchase shares in the capital of the Company or its holding company if at some future date the cash resources of the Company are in excess of its requirements or there are other good grounds for doing so. In this regard the directors will take account of, inter alia, an appropriate capitalisation structure for the

Company, the long-term cash needs of the Company and the interests of the Company;

- in determining the method by which the Company intends to repurchase its securities or the securities of its holding company, the maximum number of securities to be repurchased and the date on which such repurchase will take place, the directors of the Company will only make repurchases if at the time of the repurchase they are of the opinion that:
 - b.1 the Company and its subsidiaries will, after the repurchase, be able to pay their debts as they become due in the ordinary course of business for the 12 (twelve) month period following the date of this notice of the annual general meeting;
 - b.2 the consolidated assets of the Company and its subsidiaries, fairly valued and recognised and measured in accordance with the accounting policies used in the latest audited financial statements, will, after the repurchase, be in excess of the consolidated liabilities of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting;
 - b.3 the issued share capital and reserves of the Company and its subsidiaries will, after the repurchase, be adequate for the ordinary business purposes of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting; and
 - b.4 the working capital available to the Company and its subsidiaries will, after the repurchase, be adequate for the ordinary business purposes of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting.

Reason for and effect of special resolution number 4

The reason for special resolution number 4 is to grant the Company a general authority in terms of the JSE Listings Requirements for the acquisition by the Company or any of its subsidiaries of shares issued by the Company or its holding company, which authority shall be valid until the earlier of the next annual general meeting of the Company or the variation or revocation of such general authority by special resolution by any subsequent general meeting of the Company, provided that the general authority shall only be valid until the Company's next annual general meeting, or for 15 (fifteen) months from the date of passing of this special resolution, whichever period is shorter. The passing and filing of this special resolution will have the effect of authorising the Company or any of its subsidiaries to acquire shares issued by the Company or its holding company.

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five percent) of the voting rights to be cast on the resolution.

10. ORDINARY RESOLUTION NUMBER 4

Directors' authority to implement special and ordinary resolutions

"RESOLVED AS AN ORDINARY RESOLUTION that each and every director of the Company be and is hereby authorised to do all such things and sign all such documents as may be necessary for or incidental to the implementation of the resolutions passed at this meeting."

Under the 2008 Companies Act the MOI will be a single document. On the date that the 2008 Companies Act came into effect, the Memorandum of Association and Articles of Association of the Company automatically converted

into the Company's MOI. Accordingly, for consistency of reference in this notice of annual general meeting, the term "MOI" or "Memorandum of Incorporation" is used throughout to refer to the Company's Memorandum of Incorporation.

6. SPECIAL RESOLUTION NUMBER 1

"RESOLVED AS A SPECIAL RESOLUTION to abrogate in its entirety the Company's existing Memorandum of Incorporation and to replace it with a new Memorandum of Incorporation (a draft of which has been tabled at the annual general meeting and initialled by the chairperson of the annual general meeting for identification purposes)."

A summary of the salient features (which in the Company's view might be thought to be material) of the proposed new MOI is set out on pages 91 to 97 of the Integrated Annual Report to assist shareholders to make a considered assessment in deciding how to vote.

Shareholders are alerted to their rights in terms of Section 164 read with Section 37(8) of the Companies Act in terms of which, if any of the amendments proposed in the new MOI will materially and adversely alter the preferences, rights, limitations or other terms of the Company's shares, then at any time before this resolution is to be voted on, a dissenting shareholder may give the Company a written notice objecting to this resolution and such dissenting shareholder will have the rights more fully set out in Section 164 of the Companies Act. A copy of the relevant portions of Section 164 of the Companies Act is set out on pages 98 and 99 of this Integrated Annual Report. The Company has not, in preparing the summary of the salient features of the proposed new MOI, considered which, if any, of the changes to be made by the proposed new MOI to the existing MOI might be considered by shareholders to be adverse as contemplated in Section 164 of the Companies Act. Shareholders should conduct their own detailed analysis and comparison of the Company's existing MOI and the proposed new MOI.

The full text of the proposed new MOI and a copy of the existing MOI are available on the Company website at www.picknpay-ir.co.za. Alternatively shareholders can request a copy of the proposed new MOI to be posted to them or emailed to them by contacting Debra Muller by telephone on 021 658 1000, or by email at demuller@pnp.co.za, or by post at PO Box 23087, Claremont, 7735.

The reason for special resolution number 1 is to bring the Company's incorporation documents into harmony with the provisions of the 2008 Companies Act and to deal with the effect of the 2008 Companies Act. The Company has also used this opportunity to thoroughly review the contents of the existing MOI and to update, amend or omit parts thereof as necessary, unrelated to the introduction of the 2008 Companies Act. The passing of this special resolution will have the effect of replacing the Company's existing MOI with the new MOI referred to in special resolution number 1.

7. SPECIAL RESOLUTION NUMBER 2

"RESOLVED AS A SPECIAL RESOLUTION that the directors' fees, to be paid to the directors in their capacity as directors only, for the year ending 28 February 2013 be as follows:

The reason for special resolution number 2 is to obtain shareholder approval for the remuneration of each of the directors of the Company for the year ending 28 February 2013 in accordance with Section 66(9) of the 2008 Companies Act. The passing of this special resolution will have the effect of approving the remuneration of each of the directors of the Company for the year ending 28 February 2013 in accordance with Section 66(9) of the 2008 Companies Act.

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five) of the voting rights to be cast on the resolution.

8. SPECIAL RESOLUTION NUMBER 3

Provision of financial assistance to related or inter-related companies and others

"RESOLVED AS A SPECIAL RESOLUTION that in terms of and subject to the provisions of Section 45 of the Companies Act, the shareholders of the Company hereby approve, as a general approval (subject to the requirements of the Company's Memorandum of Incorporation and the Companies Act from time to time) and subject to compliance with Section 45 of the Companies Act at any time and from time to time, the provision by the Company of any direct or indirect financial assistance as contemplated in Section 45 of the Companies Act, to a director or prescribed officer of the Company or of a related or inter-related company, or to any 1 (one) or more related or inter-related companies, or to a member of a related or inter-related company or corporation on such terms and conditions as the Board of directors of the Company, or any 1 (one) or more persons authorised by the Board of directors of the Company from time to time for such purpose, may deem fit, in the form, nature and extent, and for the amounts that the Board of directors of the Company, or any 1 (one) or more persons authorised by the Board of directors of the Company from time to time for such purpose, may determine from time to time. To the extent which the Companies Act requires any other approval by the shareholders of the Company pursuant to the provision of financial assistance, such approval is hereby granted. This general authority will be valid up to and including the day before the second anniversary of this special resolution being adopted or until superseded by another special resolution, whichever period is shorter."

NOTES ON THE INTERPRETATION OF SPECIAL RESOLUTION NUMBER 3:

- "financial assistance" will have the meaning attributed to it in Section 45(1) of the 2008 Companies Act; and
- "related" and "inter-related" will have the meanings so attributed in Section 2 of the 2008 Companies Act.

The reason for this special resolution is to obtain shareholder approval for financial assistance, when the need arises, to any director or prescribed officer of the Company, as well as to any related or inter-related companies in accordance with Section 45 of the 2008 Companies Act.

This special resolution will allow the Company to continue to operate as it has in the past, providing financial assistance to companies within the Pick n Pay Group, on the basis of certain day-to-day operational decisions where the Company previously was not required to obtain shareholders' approval or consent.

In addition, this special resolution allows the Company to continue with its existing policy of providing financial assistance to directors and prescribed officers or members or related persons. The existing policy is limited to housing loans to executives and management of the Group. In terms of this policy, no loans are extended to non-executive directors or to related parties. All loans are secured against the employee's retirement funding. The summary contained in note 12 of the Annual Financial Statements on page 39 summarises the policy as follows: "Loans to directors and employees are secured, bear interest at varying rates, subject to a maximum rate of 8% (2011: 8%) and have varying repayment terms." The Company does not intend to amend this policy in the foreseeable future.

The passing of this special resolution will have the effect of the Company having the necessary authority to provide financial assistance to the persons contemplated in this special resolution as and when required to do so and to confer the necessary authority on the Board of directors of the Company to authorise financial assistance to:

- a director or prescribed officer of the Company or of a related or inter-related company; or
- any 1 (one) or more related or inter-related company, or to a member of a related or inter-related company or corporation,
- generally as the Board of directors of the Company may deem fit, on the terms and conditions, and for the amounts that the Board of directors of the Company may determine from time to time. The granting of the general authority would obviate the need to refer each instance of provision of financial assistance for shareholder approval in the circumstances contemplated in this special resolution. This general authority would assist the

Company with, inter alia, making financial assistance available to directors or prescribed officers in terms of existing Company policy, as well as inter-company loans to subsidiaries of the Company, or inter-related companies, as well as granting letters of support and guarantees in appropriate circumstances. This would avoid undue delays and attendant adverse financial impact on subsidiaries, or related or inter-related companies, as it would facilitate the expeditious conclusion of negotiations.

If this special resolution is approved by the shareholders of the Company, thereby conferring general authority on the Board of directors of the Company to authorise financial assistance as contemplated above, then the Board of directors of the Company shall not adopt any resolution to authorise such financial assistance as contemplated in this special resolution unless the Board of directors of the Company:

- is satisfied that immediately after providing such financial assistance, the Company will satisfy the solvency and liquidity test as referred to in Section 45(3)(b)(i) of the Companies Act; and
- is satisfied that the terms under which such financial assistance is proposed to be given are fair and reasonable to the Company as contemplated in Section 45(3)(b)(ii) of the Companies Act; and
- has ensured that, to the extent which may be applicable, any conditions or restrictions in respect of the granting of financial assistance set out in the Company's MOI have been satisfied as contemplated in Section 45(4) of the Companies Act.

This special resolution does not authorise the provision of financial assistance to a person related to a member of a related or inter-related company.

In the circumstances and for the purposes contemplated above, it is necessary to obtain the approval of the shareholders, as set out in this special resolution.

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five percent) of the voting rights to be cast on the resolution.

9. SPECIAL RESOLUTION NUMBER 4

General approval to repurchase Company shares

"RESOLVED AS A SPECIAL RESOLUTION that the Company hereby approves, as a general approval, the acquisition by the Company or any of its subsidiaries from time to time of the issued shares of the Company, upon such terms and conditions and in such amounts as the directors of the Company may from time to time determine, but subject to the Memorandum of Incorporation of the Company, the provisions of the South African Companies Act No 71 of 2008, as amended, and the JSE Limited (JSE) Listings Requirements (JSE Listings Requirements) as presently constituted and which may be amended from time to time, and provided that acquisitions by the Company and its

subsidiaries of shares in the capital of the Company may not, in the aggregate, exceed in any one financial year 5% (five percent) of the Company's issued share capital of the class of shares acquired from the date of the grant of this general approval.

Additional requirements imposed by the JSE Listings Requirements

It is recorded that the Company or its subsidiaries may only make a general acquisition of shares if the following JSE Listings Requirements are met:

- any such acquisition of shares shall be effected through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the Company or its subsidiaries and the counterparty or other manner approved by the JSE;
- the general approval shall only be valid until the Company's next annual general meeting or for 15 (fifteen) months from the date of passing of this special resolution, whichever period is shorter;
- a paid press announcement will be published as soon as the Company and/or its subsidiaries has/have acquired shares in terms of this authority constituting, on a cumulative basis, 3% (three percent) of the number of shares of the class of shares acquired in issue at the time of granting of this general approval and for each 3% (three percent) in aggregate of the initial number of that class of shares acquired thereafter, which announcement shall contain full details of such acquisitions as required by paragraph 11.27 of the JSE Listings Requirements;
- in determining the price at which the Company's shares are acquired by the Company or its subsidiaries in terms of this general approval, the maximum price at which such shares may be acquired may not be greater than 10% (ten percent) above the weighted average of the market value at which such shares are traded on the JSE, as determined over the 5 (five) business days immediately preceding the date of the acquisition of such shares by the Company or its subsidiaries;
- in the case of a derivative (as contemplated in the JSE Listings Requirements), the price of the derivative shall be subject to the limitations set out in paragraph 5.84(a) of the JSE Listings Requirements;
- a resolution by the Board of directors of the Company that they authorised the repurchase, that the Company passed the solvency and liquidity test and that since the test was done there have been no material changes to the financial position of the Group; and
- the Company and/or its subsidiaries may not repurchase any shares in terms of this authority during a prohibited period, as defined in the JSE Listings Requirements, unless the Company and/or its subsidiaries has in place a repurchase programme, where dates and quantities of shares to be traded during the prohibited period are fixed and full details of the programme have been disclosed in an announcement over SENS prior to the commencement of the prohibited period.

Statement by the Board of directors of the Company

Pursuant to, and in terms of, the JSE Listings Requirements, the Board of directors of the Company hereby state that:

- the intention of the directors of the Company is to utilise the general authority to acquire shares in the capital of the Company if at some future date the cash resources of the Company are in excess of its requirements or there are other good grounds for doing so. In this regard the directors will take account of, inter alia, an appropriate capitalisation structure for the Company, the long-term cash needs of the Company and the interests of the Company;
- in determining the method by which the Company intends to repurchase its securities, the maximum number of securities to be repurchased and the date on which such repurchase will take place, the directors of the Company will only make repurchases if at the time of the repurchase they are of the opinion that:
 - b.1 the Company and its subsidiaries will, after the repurchase, be able to pay their debts as they become due in the ordinary course of business for the 12 (twelve) month period following the date of this notice of the annual general meeting;
 - b.2 the consolidated assets of the Company and its subsidiaries, fairly valued and recognised and measured in accordance with the accounting policies used in the latest audited financial statements, will, after the repurchase, be in excess of the consolidated liabilities of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting;
 - b.3 the issued share capital and reserves of the Company and its subsidiaries will, after the repurchase, be adequate for the ordinary business purposes of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting; and
 - b.4 the working capital available to the Company and its subsidiaries will, after the repurchase, be adequate for the ordinary business requirements of the Company and its subsidiaries for the 12 (twelve) month period following the date of this notice of the annual general meeting.

Reason and effect of special resolution number 4

The reason for special resolution number 4 is to grant the Company a general authority in terms of the JSE Listings Requirements for the acquisition by the Company or any of its subsidiaries of shares issued by the Company, which authority shall be valid until the earlier of the next annual general meeting of the Company or the variation or revocation of such general authority by special resolution by any subsequent general meeting of the Company, provided that the general authority shall only be valid until the Company's next annual general meeting, or for 15 (fifteen) months from the date of passing of this special resolution, whichever period is shorter. The passing and filing of this

special resolution will have the effect of authorising the Company and/or any of its subsidiaries to acquire shares issued by the Company.

The minimum percentage of voting rights that is required for this resolution to be approved is 75% (seventy-five percent) of the voting rights to be cast on the resolution.

10. ORDINARY RESOLUTION NUMBER 4

Directors' authority to implement special and ordinary resolutions

"RESOLVED AS AN ORDINARY RESOLUTION that each and every director of the Company be and is hereby authorised to do all such things and sign all such documents as may be necessary for or incidental to the implementation of the resolutions passed at this meeting."

The minimum percentage of voting rights that is required for this resolution to be approved is 50% (fifty percent) of the voting rights plus 1 (one) vote to be cast on the resolution.

If you hold certificated shares (i.e. have not dematerialised your shares in the Company) or are registered as an own name dematerialised shareholder (i.e. have specifically instructed your

Central Securities Depository Participant (CSDP) to hold your shares in your own name on the Company's subregister) then:

- you may attend and vote at the annual general meeting; alternatively
- you may appoint an individual as a proxy (who need not also be a shareholder of the Company) to attend, participate in and speak and vote in your place at the annual general meeting by completing the attached form of proxy and returning it to the registered office of the Company or to the transfer secretaries, Computershare Investor Services (Proprietary) Limited, the details of which are set out on page 81 of the Integrated Annual Report, by no later than 09:30 on Wednesday, 13 June 2012 being 48 (forty-eight) hours prior to the time appointed for the holding of the annual general meeting, for administrative reasons only. Please also note that the attached form of proxy must be delivered to the registered office of the Company or to the transfer secretaries, Computershare Investor Services (Proprietary) Limited as aforesaid, before your proxy may exercise any of your rights as a shareholder at the annual general meeting.

Accordingly, in these circumstances, subject to the mandate between yourself and your CSDP or broker (or their nominee), as the case may be:

- if you wish to attend the annual general meeting you must contact your CSDP or broker (or their nominee), as the case may be, and obtain the relevant letter of representation from it; alternatively

- if you are unable to attend the annual general meeting but wish to be represented at the meeting, you must contact your CSDP or broker (or their nominee), as the case may be, and furnish it with your voting instructions in respect of the annual general meeting and/or request it to appoint a proxy. You should not complete the attached form of proxy. The instructions must be provided in accordance with the mandate between yourself and your CSDP or broker, as the case may be, within the time period required by your CSDP or broker, as the case may be.

CSDPs, brokers or their nominees, as the case may be, recorded in the Company's subregister as holders of dematerialised shares held on behalf of an investor/beneficial owner in terms of STRATE should, when authorised in terms of their mandate or instructed to do so by the owner on behalf of whom they hold dematerialised shares in the Company, vote by either appointing a duly authorised representative to attend and vote at the annual general meeting or by completing the attached form of proxy in accordance with the instructions thereon and returning it to the registered office of the Company or to the transfer secretaries, Computershare Investor Services (Proprietary) Limited, the details of which are set out on page 81 of the Integrated Annual Report, by no later than 09:30 on Wednesday, 13 June 2012, being 48 (forty-eight) hours prior to the time appointed for the holding of the annual general meeting, for administrative reasons only.
